**AUXIER FOCUS FUND  
PERFORMANCE UPDATE  
JUNE 30, 2004**

<b>Average Annual Total Returns (for periods ended June 30, 2004)</b>					
	<u><b>3 months</b></u>	<u><b>6 months</b></u>	<u><b>1 year</b></u>	<u><b>3 years</b></u>	<u><b>Since Inception (July 9, 1999)</b></u>
Auxier Focus Fund	0.37%	2.92%	19.17%	8.03%	8.02%
S&P 500 Index	1.72%	3.44%	19.11%	-0.70%	-2.66%

**Comparison of the Growth of a \$10,000 Investment in the Auxier Focus Fund and the S&P 500 Index**

*The S&P 500 Index is a widely recognized unmanaged index of common stock prices and is representative of a broader market and range of securities than is found in the Fund's portfolio. Performance figures reflect the change in value of the stocks in the index, and reinvestment of dividends. The index returns do not reflect expenses, which have been deducted from the Fund's return. The performance of the Fund is computed on a total return basis, which includes reinvestment of all dividends and capital gains. **THE FUND'S RETURN REPRESENTS PAST PERFORMANCE AND DOES NOT PREDICT FUTURE RESULTS.** Investment returns and the principal value of an investment will fluctuate so that an investor's shares, when redeemed, may be worth more or less than their original cost. The returns shown do not reflect deduction of taxes that a shareholder would pay on Fund distributions or the redemption of Fund shares. Performance data current to the most recent month end may be obtained at [www.auxierasset.com](http://www.auxierasset.com).*

*For a prospectus and more information, including charges and expenses, call toll free 1-877-328-9437. The prospectus should be read carefully before investing. Past performance does not guarantee future*

*results. Shares when redeemed may be worth more or less than their original cost. Distributed by Unified Financial Securities, Inc, 431 N. Pennsylvania St. Indianapolis, IN 46204. Member NASD.*

## **Management's Discussion of Fund Performance**

The Auxier Focus Fund ended the second quarter of 2004 with a three-month return of 0.37%, a sixth-month return of 2.92%, and a 12-month return of 19.17%. This compares with the S&P 500 Index returns of 1.72%, 3.44% and 19.11% for the respective periods. From inception, July 9, 1999, through June 30, 2004, the Fund's cumulative total return was +46.73% while the S&P 500's cumulative total return for the same period was -12.54%. As a result, the Fund has outperformed the S&P 500 Index since its inception on a cumulative basis by 59.27%.

Although our stocks performed generally in line with the market, our interest rate sensitive "work-out" positions hurt overall performance.

## **The General Market**

Last quarter I commented that bond investors were not being adequately compensated for the risks fostered by enormous government stimulation. Subsequently, treasuries suffered their worst quarterly decline since 1980. Total Return on the 30-year bond declined 6.17% during the second quarter of 2004.

## **Consumer Debt**

Abnormally low short-term interest rates have led to a sharp increase in debt accumulation by Americans. Household debt, which includes credit cards and mortgage, home-equity and auto loans, currently exceeds \$9 trillion. Close to 40% of this total has been incurred over the past four years. Nearly half is variable rate in nature. Some 60% of credit card balances are rolled over monthly at rates as high as 22%. Thrift is a badly needed virtue in this country.

The rule on debt is to never to borrow against depreciating assets. This normally includes consumer goods such as cars, boats, etc. It also includes assets that are grossly overpriced. To overpay is bad enough, but when you add borrowed money to the mix it can lead to painful consequences.

## **China**

China has become such a powerful economic force that changes in its policies can have a meaningful ripple effect on many other countries and companies. Earlier this year, the Chinese government started to implement credit curbs together with a tightening of investment regulations. There have been over 30 separate tightening moves by Chinese policymakers in recent months. As demand slows, many multinational firms can find growth projections too optimistic leading to inventory problems and subsequent margin compression.

## **The Good News on Rising Rates**

Looking back over the past 25 years, some of our best long-term buying opportunities took place after a series of rate increases. In 1987, rates rose steadily from 7% to 10% leading to the crash and unbelievable markdowns across the board. In 1994, long rates rose from 5.75% to 8%. Purchases in 1994 led to strong returns in 1995-97. Periods of tight money should be viewed as unique opportunities to buy quality assets on sale. The mistakes made during the "easy money" years become very obvious in a tightening cycle. We believe that opportunities abound for value-minded vultures.

## **Portfolio Safeguards**

At all times we try to have a portion of the Fund's portfolio invested in securities that we believe are insulated from the overall market. We always want to have liquidity to take advantage of distressed situations. The returns of these securities are dependent more on a managerial corporate action as opposed to the general

supply/demand of the auction markets. As market levels rise and the corresponding risk increases we move to more conservative investments that tend to have a timetable. Then, when the general market declines, we optimally move into securities of what we believe are undervalued, high quality, high return businesses. In general, we need to have the double or triple play upside in this area before we commit funds. We like the odds to be very favorable on a potential risk/reward basis.

### **No Premium for Quality**

The price dispersion between high quality and low quality stocks has recently compressed to a 20-year low. This means that high quality stocks have lost their historical premium valuations to the market and are starting to look attractive versus other stocks and asset classes.

Ironically, just as quality is being priced more reasonably, interest rates are beginning to rise and earnings gains are decelerating. This kind of fundamental backdrop historically has favored the stronger, industry leading company, especially those with solid balance sheets and free cash flow. When money is tight, assets are cheaper and the self-funding leaders get stronger. Companies with tremendous free cash flow have the financial flexibility to buy back stock, raise dividends or make attractively priced acquisitions.

### **Final Thoughts**

The auction markets in general provide investors with a wide array of opportunities to achieve returns. Too often ego, emotion and irrational behavior get in the way of optimal performance. We strive to adhere to a systematic, low risk approach based on research and facts. As Ben Graham stated in The Intelligent Investor, “proper temperament + proper intellectual framework = rational behavior.”

### **Housekeeping**

The Fund maintains Morningstar’s highest rating, with an overall 5 Stars based on annualized total return for the three-year period ending June 30, 2004 (out of 591 Moderate Allocation Funds).

Since inception, Jeff Auxier, the Fund’s portfolio manager has maintained a substantial personal investment in the Fund, and has committed to retaining his investment as long as he serves as portfolio manager to the Fund.

### **Morningstar Inc.**

©2003 Morningstar, Inc. All rights reserved. Data is the proprietary information of Morningstar, Inc. and may not be copied or redistributed. While this section has been prepared in cooperation with Morningstar, Inc., the information used is not represented to be correct, complete, or timely. Morningstar, Inc. shall not be responsible for investment decisions, damages, or other losses resulting from the use of this information. The Auxier Focus Fund has not been ranked by Morningstar Inc. for its 5 and 10 year returns since the fund’s inception date does not cover these periods. For each fund with at least a three-year history, Morningstar calculates a Morningstar Rating based on a Morningstar Risk-Adjusted Return measure that accounts for variation in a fund’s monthly performance (including the effects of sales charges, loads, and redemption fees), placing more emphasis on downward variations and rewarding consistent performance. The top 10% of funds in each category receive 5 stars, the next 22.5% receive 4 stars, the next 35% receive 3 stars, the next 22.5% receive 2 stars and the bottom 10% receive 1 star. (Each share class is counted as a fraction of one fund within this scale and rated separately, which may cause slight variations in the distribution percentages.) The Overall Morningstar Rating for a fund is derived from a weighted average of the performance figures associated with its three-, five- and ten-year (if applicable) Morningstar Rating metrics. Past performance is no guarantee of future results.

**Auxier Focus Fund**  
**Notes to Financial Statements**  
**June 30, 2004**

**NOTE 1. ORGANIZATION**

Auxier Focus Fund (the “Predecessor Fund”) was organized as a non-diversified series of the AmeriPrime Funds on February 2, 1999 and commenced operations on July 9, 1999. On January 3, 2003, all assets and liabilities of the Predecessor Fund were acquired by the Auxier Focus Fund (the “Fund”), a series of Unified Series Trust (the “Trust”), in a tax-free reorganization. The Fund was organized as a non-diversified series of the Trust on December 18, 2002. The Trust is an open-end investment company established under the laws of Ohio by an Agreement and Declaration of Trust dated October 17, 2002 (the “Trust Agreement”) The Agreement permits the Board of Trustees (the “Board”) to issue an unlimited number of shares of beneficial interest of separate series without par value. The Fund is one of the series of funds currently authorized by the Trustees. The Fund’s investment objective is to provide long-term capital appreciation. The investment advisor to the Fund is Auxier Asset Management, LLC (the “Advisor”).

**NOTE 2. SIGNIFICANT ACCOUNTING POLICIES**

The following is a summary of significant accounting policies followed by the Fund in the preparation of its financial statements.

*Securities Valuation-* Securities that are traded on any stock exchange are generally valued by the pricing service at the last quoted sale price. Lacking a last sale price, an exchange traded security is generally valued by the pricing service at its last bid price. Securities traded in the NASDAQ over-the-counter market are generally valued by the pricing service at the NASDAQ Official Closing Price. When market quotations are not readily available, when the Advisor determines that the market quotation or the price provided by the pricing service does not accurately reflect the current market value or when restricted securities are being valued, such securities are valued as determined in good faith by the Advisor, in conformity with guidelines adopted by and subject to review of the Board of Trustees of the Trust.

Fixed income securities generally are valued by using market quotations, but may be valued on the basis of prices furnished by a pricing service when the Advisor believes such prices accurately reflect the fair market value of such securities. A pricing service utilizes electronic data processing techniques based on yield spreads relating to securities with similar characteristics to determine prices for normal institutional-size trading units of debt securities without regard to sale or bid prices. If the Advisor decides that a price provided by the pricing service does not accurately reflect the fair market value of the securities, when prices are not readily available from a pricing service or when restricted or illiquid securities are being valued, securities are valued at fair value as determined in good faith by the Advisor, in conformity with guidelines adopted by and subject to review of the Board of Trustees. Short term investments in fixed-income securities with maturities of less than 60 days when acquired, or which subsequently are within 60 days of maturity, are valued by using the amortized cost method of valuation, which the Board of Trustees has determined will represent fair value.

*Federal Income Taxes-* There is no provision for federal income tax. The Fund intends to qualify each year as a “regulated investment company” under subchapter M of the Internal Revenue Code of 1986, as amended, by distributing all of its net investment income and net realized capital gains.

*Security Transactions and Related Income-* The Fund follows industry practice and records security transactions on the trade date. The specific identification method is used for determining gains or losses for financial statements and income tax purposes. Dividend income is recorded on the ex-dividend date and interest income is recorded on an accrual basis. Discounts and premiums on securities purchased are amortized over the life of the respective securities.

**Auxier Focus Fund**  
**Notes to Financial Statements**  
**June 30, 2004 – continued**

**NOTE 2. SIGNIFICANT ACCOUNTING POLICIES- continued**

*Dividends and Distributions-* The Fund intends to distribute substantially all of its net investment income as dividends to its shareholders on at least an annual basis. The Fund intends to distribute its net realized long- term capital gains and its net realized short term capital gains at least once a year. The treatment for financial reporting purposes of distributions made to shareholders during the year from net investment income or net realized capital gains may differ from their ultimate treatment for federal income tax purposes. These differences are caused by differences in the timing of the recognition of certain components of income, expense or realized capital gain for federal income tax purposes.

*Distributions to Shareholders-* Distributions to shareholders, which are determined in accordance with income tax regulations, are recorded on the ex-dividend date.

*Foreign Currency-* Investment securities and other assets and liabilities denominated in foreign currencies are translated into U.S. dollar amounts at the date of valuation. Purchases and sales of investment securities and income and expense items denominated in foreign currencies are translated into U.S. dollar amounts on the respective dates of such transactions.

The Fund does not isolate that portion of the results of operations resulting from changes in foreign exchange rates on investments from the fluctuations arising from changes in market prices of securities held. Such fluctuations are included with the net realized and unrealized gain or loss from investments.

Reported net realized foreign exchange gains or losses arise from sales of foreign currencies, currency gains or losses realized between the trade and settlement dates on securities transactions, and the difference between the amounts of dividends, interest and foreign withholding taxes recorded on the funds' books and the U.S. dollar equivalent of the amounts actually received or paid. Net unrealized foreign exchange gains and losses arise from changes in the fair values of assets and liabilities, other than investments in securities at fiscal period end, resulting from changes in exchange rates.

*Other-* The Fund follows industry practice and records security transactions on the trade date. The specific identification method is used for determining gains or losses for financial statements and income tax purposes. Dividend income is recorded on the ex-dividend date and interest income is recorded on an accrual basis. Discounts and premiums on securities purchased are amortized over the life of the respective securities.

**NOTE 3. FEES AND OTHER TRANSACTIONS WITH AFFILIATES**

Auxier Asset Management, LLC, serves as investment advisor to the Fund. Under the terms of the management agreement (the "Agreement"), the Advisor manages the Fund's investments subject to approval of the Board and pays all of the expenses of the Fund except brokerage fees and commissions, taxes, borrowing costs (such as interest and dividends on securities sold short), Rule 12b-1 expenses (if any), fees and expenses of non-interested person Trustees and extraordinary expenses. As compensation for its management services and agreement to pay the Fund's expenses, the Fund is obligated to pay the Advisor a fee computed and accrued daily and paid monthly at an annual rate of 1.35% of the average value

**Auxier Focus Fund**  
**Notes to Financial Statements**  
**June 30, 2004 - continued**

**NOTE 3. FEES AND OTHER TRANSACTIONS WITH AFFILIATES- continued**

of its daily net assets of the Fund. It should be noted that most investment companies pay their own operating expenses directly, while the Fund's expenses, except those specified above, are paid by the Advisor. For the year ended June 30, 2004, the Advisor earned a fee of \$536,482 from the Fund. The Advisor has contractually agreed to reimburse the Fund for the fees and expenses of the disinterested Trustees, but only to the extent necessary to maintain the Fund's total annual operating expenses at 1.35% of its average daily assets through October 31, 2004. For the year ended June 30, 2004, the Advisor reimbursed \$1,469 to the Fund. At June 30, 2004, the Fund owed the Advisor \$66,578

The Fund retains Unified Fund Services, Inc. ("Unified"), a wholly owned subsidiary of Unified Financial Services, Inc., to manage the Fund's business affairs and provide the Fund with administrative, transfer agency, and fund accounting services, including all regulatory reporting and necessary office equipment and personnel. The Advisor paid all administrative, transfer agency, and fund accounting fees on behalf of the Fund per the Agreement. Certain Trustees and the officers of the Trust are employees of Unified and/or shareholders of Unified Financial Services, Inc. (the parent of Unified).

The Fund retains Unified Financial Securities, Inc., a wholly owned subsidiary of Unified Financial Services, Inc. to act as the principal distributor of the Fund's shares. There were no payments made by the Fund to the distributor during the year ended June 30, 2004. Certain Trustees have an ownership interest in Unified Financial Services, Inc. (the parent company of the Distributor), and an officer of the Trust is an officer of the Distributor. As a result, those persons may be deemed to be affiliates of the Distributor.

**NOTE 4. PRIVATE PLACEMENTS**

The Fund invested in the following private placements: CE Electric Funding Series Notes, \$755,000, 6.853%, maturing December 30, 2004 and Mirant Corp Notes, \$200,000, 7.90%, maturing July 15, 2009. At June 30, 2004, the notes were valued at 101.68 and 56.50, respectively, in accordance with the valuation policy of the Fund.

**NOTE 5. INVESTMENTS**

For the fiscal year ended June 30, 2004 purchases and sales of investment securities, other than short-term investments and short-term U.S. government obligations were as follows:

<b>Purchases</b>		
U.S. Government Obligations		-
Other	\$	27,490,946
<b>Sales</b>		
U.S. Government Obligations		-
Other	\$	6,084,604

**Auxier Focus Fund**  
**Notes to Financial Statements**  
**June 30, 2004 – continued**

**NOTE 5. INVESTMENTS - continued**

For the fiscal year ended June 30, 2004, the net unrealized appreciation of investments for tax purposes was as follows:

Gross Appreciation	\$ 6,365,175
Gross (Depreciation)	<u>(696,202)</u>
Net Appreciation on Investments	<u>\$ 5,668,973</u>

At June 30, 2004, the aggregate cost of securities for Federal income tax purposes was \$58,887,010. The difference between book cost of securities and tax cost of securities is due to the deferral of losses on wash sales of \$22,698.

**NOTE 6. ESTIMATES**

Preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

**NOTE 7. BENEFICIAL OWNERSHIP**

The beneficial ownership, either directly or indirectly, of more than 25% of the voting securities of a fund creates a presumption of control of the fund, under Section 2(a)(9) of the Investment Company Act of 1940. As of June 30, 2004, Charles Schwab & Co. held, for the benefit of its customers, 50.57% of the outstanding Fund shares.

**NOTE 8. DISTRIBUTION TO SHAREHOLDERS**

On December 24, 2003, an income distribution of \$0.1721 was declared. The dividend was paid on December 26, 2003 to shareholders of record on December 24, 2003.

The tax character of distributions paid during the fiscal years 2004 and 2003 were as follows:

Distributions paid from:	<u>2004</u>	<u>2003</u>
Ordinary Income	\$ 452,175	\$ 172,069
Short-Term Capital Gain	-	134,524
Long-Term Capital Gain	-	<u>154,560</u>
	<u>\$ 452,175</u>	<u>\$ 461,153</u>

As of June 30, 2004, the components of distributable earnings (accumulated losses) on a tax basis were as follows:

**Auxier Focus Fund**  
**Notes to Financial Statements**  
**June 30, 2004 – continued**

**NOTE 8. DISTRIBUTION TO SHAREHOLDERS- continued**

Undistributed ordinary income/(accumulated losses)	\$ 358,832
Undistributed long-term capital gain/(accumulated losses)	281,775
Unrealized appreciation/(depreciation)	<u>5,668,973</u>
	<u>\$ 6,309,580</u>

The difference between book basis and tax basis unrealized appreciation (depreciation) is attributable primarily to the tax deferral of wash sales.

**NOTE 9. CHANGE IN ACCOUNTANTS**

On March 3, 2004, McCurdy & Associates CPA's, Inc. ("McCurdy") notified the Board of its intention to resign as the Fund's independent auditors upon selection of replacement auditors.

On March 14, 2004, the Fund's Audit Committee and Board selected Cohen McCurdy, Ltd. ("Cohen") to replace McCurdy as the Fund's auditors for the fiscal year ending June 30, 2004 to be effective upon the resignation of McCurdy.

On March 14, 2004, upon receipt of notice that Cohen was selected as the Fund's auditor, McCurdy, whose audit practice was acquired by Cohen, resigned as independent auditors to the Fund. McCurdy's reports on the Fund's financial statements for the fiscal year ended June 30, 2003 contained no adverse opinion or a disclaimer of opinion nor were they qualified or modified as to uncertainty, audit scope or accounting principles. During the fiscal year ended June 30, 2003 through the date of engagement of Cohen, there were no disagreements with McCurdy on any matter of accounting principles or practices, financial statement disclosure, or auditing scope or procedure which, if not resolved to the satisfaction of McCurdy, would have caused McCurdy to make reference to the subject matter of the disagreements in connection with its reports on the Fund's financial statements for such periods.

Neither the Fund nor anyone on its behalf consulted with Cohen on items which (i) concerned the application of accounting principles to a specified transaction, either completed or proposed or the type of audit opinion that might be rendered on the Fund's financial statements as a result of such consultations or (ii) concerned the subject of a disagreement (as defined in paragraph (a)(1)(iv) of Item 304 of Regulation S-K) or a reportable event (as described in paragraph (a)(1)(v) of said Item 304).

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To The Shareholders and  
Board of Trustees  
Auxier Focus Fund  
(a series of Unified Series Trust)

We have audited the accompanying statement of assets and liabilities, including the schedule of investments, of the Auxier Focus Fund as of June 30, 2004, and the related statement of operations, the statement of changes in net assets and the financial highlights for the year then ended. These financial statements and financial highlights are the responsibility of the Fund's management. Our responsibility is to express an opinion on these financial statements and financial highlights based on our audit. The statements of changes in net assets for the year ended June 30, 2003 and the financial highlights for the periods indicated prior to June 30, 2004 were audited by McCurdy & Associates CPA's, Inc., whose audit practice was acquired by Cohen McCurdy, Ltd. McCurdy & Associates CPA's, Inc. expressed unqualified opinions on those statements.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements and financial highlights are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. Our procedures included confirmation of investments and cash held as of June 30, 2004 by correspondence with the Fund's custodian and brokers. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements and financial highlights referred to above present fairly, in all material respects, the financial position of Auxier Focus Fund as of June 30, 2004, the results of its operations, changes in net assets and the financial highlights for the year then ended, in conformity with accounting principles generally accepted in the United States of America.

*Cohen McCurdy*
