SUMMARY SECTION

Auxier Focus Fund – Investor Shares, A Shares and Institutional Shares

Investment Objective

The investment objective of the Auxier Focus Fund (the “Fund”) is to provide long-term capital appreciation.

Fees and Expenses

This table describes the fees and expenses that you may pay if you buy and hold shares of the Fund. You may qualify for sales charge discounts if you and your family invest, or agree to invest in the future, at least \$50,000 in the Fund’s A Shares. More information about these and other discounts is available from your financial professional and in “Reduced Sales Charges – A Shares” on page 20 of the Fund’s prospectus.

Shareholder Fees (fees paid directly from your investment)	Investor Shares	A Shares	Institutional Shares
Maximum Sales Charge (Load) Imposed on Purchases of Less Than \$1 million (as a percentage of the offering price)	None	5.75%	None
Maximum Contingent Deferred Sales Charge (Load) Imposed on Redemptions (as a percentage of the lesser of the redemption price or offering price)	None	1.00% ⁽¹⁾	None
Maximum Sales Charge (Load) Imposed on Reinvested Dividends and Distributions (as a percentage of the offering price)	None	None	None
Redemption Fee (as a percentage of amount redeemed within 180 days of purchase, if applicable)	2.00%	2.00%	2.00%

Annual Fund Operating Expenses (expenses that you pay each year as a percentage of the value of your investment)			
Management Fees	0.80%	0.80%	0.80%
Distribution and/or Service (12b-1) Fees	None	0.25%	None
Other Expenses	0.30%	0.46%	0.30%
Total Annual Fund Operating Expenses	1.10%	1.51%	1.10%
Fee Waiver and/or Expense Reimbursement ⁽²⁾	(0.18)%	(0.26)%	(0.30)%
Total Annual Fund Operating Expenses After Fee Waiver and/or Expense Reimbursement	0.92%⁽³⁾	1.25%	0.80%

⁽¹⁾ Applied to purchases not subject to an initial sales charge and redeemed less than one year after purchase.

⁽²⁾ Auxier Asset Management LLC (the “Adviser”) has contractually agreed to waive a portion of its fee and/or reimburse Fund expenses to limit Total Annual Fund Operating Expenses After Fee Waiver and/or Expense Reimbursement (excluding all taxes, interest, portfolio transaction expenses, dividend expenses on short sales, and extraordinary expenses) of Investor Shares, A Shares and Institutional Shares to 0.92%, 1.25% and 0.80%, respectively, through October 31, 2021 (the “Expense Cap”). The Expense Cap may only be raised or eliminated with the consent of the Board of Trustees. The Adviser may be reimbursed by the Fund for fees waived and expenses reimbursed by the Adviser pursuant to the Expense Cap if such payment is made within three years of the fee waiver or expense reimbursement and does not cause the Total Annual Fund Operating Expenses After Fee Waiver and/or Expense Reimbursement of a class (after the recoupment has been taken into account) to exceed the lesser of (i) the then-current expense cap, and (ii) the expense cap in place at the time the fees/expenses were waived/reimbursed.

⁽³⁾ Total Annual Fund Operating Expenses After Fee Waiver and/or Expense Reimbursement do not correlate to the ratio of expenses to average net assets given in the financial highlights due to a reduction in the expense cap for the Fund’s Investor Shares that went into effect on November 1, 2020.

Example. This Example is intended to help you compare the cost of investing in the Fund with the cost of investing in other mutual funds. The Example assumes that you invest \$10,000 in the Fund for the time periods indicated and then

hold or redeem all of your shares at the end of those periods. The Example also assumes that your investment has a 5% return each year and that the Fund’s operating expenses remain the same, except that it reflects the Expense Cap through the time periods described above. Although your actual costs may be higher or lower, based on these assumptions, whether you do or do not redeem your shares at the end of each period described below, your costs would be:

	1 Year	3 Years	5 Years	10 Years
Investor Shares	\$94	\$332	\$589	\$1,324
A Shares	\$695	\$1,001	\$1,328	\$2,252
Institutional Shares	\$82	\$320	\$577	\$1,313

Portfolio Turnover. The Fund pays transaction costs, such as commissions, when it buys and sells securities (or “turns over” its portfolio). A higher portfolio turnover rate may indicate higher transaction costs and may result in higher taxes when Fund shares are held in a taxable account. These costs, which are not reflected in annual fund operating expenses or in the Example, affect the Fund’s performance. During the most recent fiscal year, the Fund’s portfolio turnover rate was 2% of the average value of its portfolio.

Principal Investment Strategies

The Fund invests primarily in a diversified portfolio of equity securities that the Adviser believes offer growth opportunities at a reasonable price. The Adviser will pursue an investment blend of equity securities of growth companies and value companies. The Fund is not limited by a fixed allocation of assets to equity securities of either growth or value companies and, depending upon the economic environment and judgment of the Adviser, may invest in either growth companies or value companies to the exclusion of the other.

Although the Fund may invest in companies of any market capitalization, the Fund intends to focus its investments in the equity securities of medium to large U.S. companies (defined by the Adviser as companies with market capitalizations above \$1 billion at the time of investment). Certain sectors of the market are likely to be overweighted compared to others because the Adviser focuses on sectors that it believes demonstrate the best fundamentals for growth at a reasonable price and value. The Fund may invest up to 20% of its net assets in foreign securities, including American Depositary Receipts (“ADRs”).

The Fund may invest in short- and long-term debt securities and convertible debt securities of U.S. companies if the Adviser believes that a company’s debt securities offer more potential for long-term total return with less risk than an investment in the company’s equity securities. The Fund may invest up to 25% of its net assets in “high-yield” fixed income securities rated at the time of purchase BB/Ba or lower by Standard & Poor’s or Moody’s or unrated but determined to be of comparable quality by the Adviser (“junk bonds”). The Fund also may invest up to 25% of its net assets in fixed-income securities issued or guaranteed by the U.S. Government, its agencies or instrumentalities, or by the Canadian Government and its governmental agencies.

The Fund may engage in short sales “against-the-box.” In a short sale, the seller sells a borrowed security, provides the lender collateral which is marked-to-market in an amount equal to the value of the security borrowed, and assumes an obligation to the lender to deliver the identical security at a certain time in the future. A short sale is against-the-box to the extent that the seller contemporaneously owns or has the right to obtain securities identical to those sold short. The Fund will not make short sales if, as a result, more than 20% of the Fund’s net assets would be held as collateral for short sales.

The Fund typically sells a security when the Adviser’s research indicates that there has been a deterioration in the company’s fundamentals, such as changes in the company’s competitive position or a lack of management focus. The Fund may invest a significant portion of the Fund’s total assets in cash or cash equivalents if the Adviser’s process does not identify other appropriate investments for the Fund.

Principal Investment Risks

The Fund's net asset value ("NAV") and investment return will fluctuate based upon changes in the value of its portfolio securities. You could lose money on your investment in the Fund, and the Fund could underperform other investments. There is no guarantee that the Fund will meet its investment objective. An investment in the Fund is not a deposit of a bank and is not insured or guaranteed by the Federal Deposit Insurance Corporation or any other government agency.

It is important that you closely review and understand the risks of investing in the Fund prior to making an investment in the Fund.

Value Investment Risk. Value investing attempts to identify companies selling at a discount to their intrinsic value. Value investing is subject to the risk that a company's intrinsic value may never be fully realized by the market or that a company judged by the Adviser to be undervalued may not be undervalued.

Growth Company Risk. The Fund's investments in growth securities may be more sensitive to company earnings and more volatile than the market in general primarily because their stock prices are based heavily on future expectations. If the Adviser's assessment of the prospects for a company's growth is wrong, or if the Adviser's judgment of how other investors will value the company's growth is wrong, then the price of the company's stock may fall or not approach the value that the Adviser has placed on it.

Equity Risk. Equity securities, which include common stocks may decline in value because of changes in the price of a particular holding or a broad stock market decline. Common stock ranks below preferred stock and debt securities in claims for dividends and for assets of the company in a liquidation or bankruptcy. The value of a security may decline for a number of reasons that directly relate to the issuer of a security or broader economic or market events including changes in interest rates.

Sector Risk. The Fund may invest a higher percentage of its total assets in one or more sectors. Developments affecting those sectors should be expected to impact the Fund more than a fund that is more broadly diversified and/or is not weighted in those sectors.

Mid Capitalization Company Risk. Investments in mid capitalization companies may be less liquid and their securities' prices may fluctuate more than those of larger, more established companies. These factors could adversely affect the Fund's ability to sell such securities at a desirable time and price.

Large Capitalization Company Risk. The Fund's investments in large capitalization companies may underperform other segments of the market because they may be less responsive to competitive challenges and opportunities and unable to attain high growth rates during periods of economic expansion.

Management Risk. The Fund is actively managed and its performance will reflect the Adviser's ability to make investment decisions that are suited to achieving the Fund's investment objective.

Market Events Risk. Geopolitical and similar disruptive events with geopolitical consequences, including pandemics (such as COVID-19), may destabilize various countries' economies and markets, which may experience increased volatility and reduced liquidity. Policy changes by the Federal Reserve and/or other government actors could similarly cause increased volatility in financial markets. Trade barriers and other protectionist trade policies (including those in the U.S.) may also result in market turbulence. Market volatility and reductions in market liquidity may negatively affect issuers worldwide, including issuers in which the Fund invests. Under such circumstances, the Fund may have difficulty liquidating portfolio holdings, particularly at favorable prices. To the extent that the Fund experiences higher levels of redemptions, the Fund may be required to transact in contemporaneous markets, even if they are volatile and/or illiquid, which may negatively impact the Fund's net asset value.

Foreign Investments Risk. The value of foreign investments may be affected by risks in addition to those affecting domestic investments, including the imposition of new, amended, or limited government regulations, changes in diplomatic relations between the U.S. and another country, political and economic instability, less favorable economic conditions, the imposition or tightening of exchange controls, trade barriers and other protectionist trade policies (including those in the U.S.), or other limitations on repatriation of foreign capital or nationalization and/or increased taxation or confiscation of investors' assets. Investments in securities of foreign issuers are subject to fluctuations in the value of the issuer's local currency relative to the U.S. dollar and may be subject to foreign withholding and other taxes.

ADR Risk. The Fund may invest in ADRs. ADR risks include, but are not limited to, fluctuations in foreign currencies and foreign investment risks, such as political and financial instability, less liquidity, lack of uniform accounting, auditing and financial reporting standards and increased price volatility. In addition, ADRs may not track the price of the underlying foreign securities, and their value may change materially at times when U.S. markets are not open for trading.

Cash and Cash Equivalents Risk. To the extent the Fund holds cash and cash equivalents positions, even strategically, the Fund risks achieving lower returns and potential lost opportunities to participate in market appreciation, which could negatively impact the Fund's performance and ability to achieve its investment objective. This is particularly true when the market for other investments in which the Fund may invest is rapidly rising.

Fixed-Income Securities Risk. The Fund may invest in fixed-income (debt) securities, which are generally subject to the following risks:

Credit Risk. The financial condition of an issuer of a fixed-income security may cause the issuer to default. A decline in an issuer's credit rating may cause a decrease in the value of the security and an increase in investment risk and price volatility.

Interest Rate Risk. An increase in interest rates typically causes a decrease in the value of fixed-income securities in which the Fund may invest. Given that interest rates are near historic lows, risks associated with rising rates may be heightened. Fixed-income securities with longer durations tend to be more sensitive to changes in interest rates, generally making them more volatile than fixed-income securities with shorter durations.

High-Yield Securities Risk. Investments in "high yield securities" or "junk bonds" are inherently speculative and have a greater risk of default than investments in investment grade fixed-income securities. If an issuer defaults, a below-investment grade security could lose all of its value, be renegotiated at a lower interest rate or principal amount or become illiquid. Below-investment grade securities may be less liquid and more volatile than investment grade fixed-income securities and may be more difficult to value or sell.

Convertible Securities Risk. Investments in convertible securities entail some of the risks of both equity and debt securities. The value of convertible securities tends to decline as interest rates rise and, because of the conversion feature, tends to vary with the fluctuations in the market value of the underlying securities or any changes in the issuer's credit rating. Convertible securities are subject to the risk that the credit rating of the issuer may have an effect on the value of the convertible securities.

Short Selling Risk. The Fund may engage in short sales of securities only against the box by borrowing a security and then selling it. If the Fund sells a security short and buys back the security at a higher price, the Fund will incur a loss on the transaction.

Sovereign Debt Risk. A sovereign debtor's willingness and ability to repay principal and interest on issued debt securities may depend on, among other things, its cash flow situation, cash reserves, foreign exchange rates, changing economic policies and the local political climate. Sovereign debt risks are greater for emerging market issuers.

U.S. Government Securities Risk. The Fund may invest in U.S. Government securities, which may be backed by the U.S. Department of the Treasury or the full faith and credit of the U.S., and may include U.S. Treasury bills, Treasury Inflation-Protected Securities, notes and bonds. These securities are guaranteed only as to the timely payment of interest and principal when held to maturity. The market prices for such securities are not guaranteed and will fluctuate. Certain U.S. Government agency securities are backed by the right of the issuer to borrow from the U.S. Department of the Treasury, or are supported only by the credit of the issuing agency or instrumentality; such securities are subject to a greater risk of default by the issuer.

Performance Information

The bar chart and table that follow provide some indication of the risks of investing in the Fund by showing changes in the performance of the Investor Shares of the Fund from year to year and by showing how the Fund's average annual returns compare with those of a broad measure of market performance. Because the A Shares have higher expenses than the Investor Shares, the performance achieved by the A Shares was lower than the performance achieved by the Investor Shares for the same period. Because the A Shares and Investor Shares have higher expenses than Institutional Shares, the performance achieved by the A Shares and Investor Shares was lower than the performance achieved by the Institutional Shares for the same period. Updated performance information is available at www.auxierasset.com or by calling (877) 3-AUXIER or (877) 328-9437 (toll free).

Performance information (before and after taxes) represents only past performance and does not necessarily indicate future results.

Annual Returns as of December 31
Investor Shares

During the period shown, the highest return for a quarter was 9.56% for the quarter ended March 31, 2013, and the lowest return was -10.40% for the quarter ended September 30, 2011.

The calendar year-to-date total return as of September 30, 2020 was -5.32%.

Average Annual Total Returns
(For the periods ended December 31, 2019)

	1 Year	5 Year	10 Year
Institutional Shares - Return Before Taxes	20.40%	7.69%	9.37% ⁽¹⁾
A Shares - Return Before Taxes	12.97%	6.01%	8.44%
Investor Shares - Return Before Taxes	20.20%	7.50%	9.20%

	1 Year	5 Year	10 Year
Investor Shares - Return After Taxes on Distributions	18.54%	6.20%	8.24%
Investor Shares - Return After Taxes on Distributions and Sale of Fund Shares	13.12%	5.73%	7.41%
S&P 500[®] Index (reflects no deduction for fees, expenses or taxes)	31.49%	11.70%	13.56%

⁽¹⁾ Institutional Shares commenced operations on May 9, 2012. Performance for the 10 -year period is a blended average annual return which include the returns of Investor Shares (inception date July 9, 1999) prior to the commencement of operations of Institutional Shares.

S&P 500[®] Index is a broad-based, unmanaged measure of changes in stock market conditions based on the average performance of stocks of 500 large U.S. companies.

After-tax returns are calculated using the historical highest individual federal marginal income tax rates and do not reflect the impact of state and local taxes. Actual after-tax returns depend on an investor's tax situation and may differ from those shown. After-tax returns shown are not relevant to investors who hold their Fund shares through tax-advantaged arrangements, such as 401(k) plans or individual retirement accounts. After-tax returns are shown only for the Investor Shares of the Fund and after-tax returns for other share classes will vary.

The return after taxes on distributions and sale of Fund shares may exceed the return before taxes due to an assumed tax benefit from any losses on a sale of Fund shares at the end of the measurement period.

Management

Investment Adviser. Auxier Asset Management LLC is the Fund's investment adviser.

Portfolio Manager. J. Jeffrey Auxier, President and Chief Investment Officer of the Adviser, is primarily responsible for the day-to-day management of the Fund. Mr. Auxier has served as portfolio manager of the Fund since its inception in 1999.

Purchase and Sale of Fund Shares

You may purchase or sell (redeem) shares of the Fund on any day that the New York Stock Exchange (the "NYSE") is open for business. You may purchase or redeem shares directly from the Fund by calling (877) 3-AUXIER or (877) 328-9437 (toll free) or writing to the Fund at Auxier Focus Fund, P.O. Box 588, Portland, Maine 04112. You also may purchase or redeem shares of the Fund through your financial intermediary. The Fund accepts investments in the following minimum amounts:

	Minimum Initial Investments	Minimum Additional Investment
Investor Shares		
Standard Accounts	\$5,000	\$50
Retirement Accounts	\$3,000	\$50
A Shares		
Standard Accounts	\$2,000	\$50
Retirement Accounts	\$2,000	\$50
Institutional Shares		
Standard Accounts	\$250,000	None
Retirement Accounts	\$250,000	None

Tax Information

Shareholders may receive distributions from the Fund, which may be taxed to shareholders other than tax-advantaged investors (such as tax-advantaged retirement plans and accounts) as ordinary income, capital gains, or some combination of both. If you are investing through a tax-advantaged account, you may still be subject to taxation at ordinary income tax rates upon withdrawals from that account.

Payments to Broker-Dealers and Other Financial Intermediaries

If you purchase the Fund through a broker-dealer or other financial intermediary (such as a bank), the Fund and its related companies may pay the intermediary for the sale of Fund shares and related services. These payments may create a conflict of interest by influencing the broker-dealer or other intermediary and your salesperson to recommend the Fund over another investment. Ask your salesperson or visit your financial intermediary's website for more information.

DETAILS REGARDING PRINCIPAL INVESTMENT STRATEGIES AND RISKS

Concepts to Understand

ADRs are certificates evidencing ownership of shares of a foreign-based issuer held in a trust by a domestic bank or similar financial institution. ADRs are alternatives to the direct purchase of the foreign securities in their national markets and currencies.

Common Stock means an ownership interest in a company and usually possesses voting rights and may earn dividends.

Equity Security means a security such as a common stock, preferred stock or convertible security that represents an ownership interest in a company.

Growth Companies are companies that have exhibited an above average participation in expanding markets, increase in earnings over the past few years and that have strong and sustainable earnings prospects.

Value Companies are companies which the Adviser believes are undervalued relative to assets, earnings, growth potential or cash flows.

Market Capitalization means the total value of all of a company's stock in the stock market based on the stock's market price.

Short Sales Against-The-Box are short sales where the seller contemporaneously owns, or has the right to obtain, securities identical to those sold short.

The investment objective of the Fund is to provide long-term capital appreciation. The Fund's investment objective is non-fundamental and may be changed by the Board of Trustees without a vote of shareholders. The Fund, however, will provide shareholders with at least 60 days' notice prior to making any changes to the investment objective.

Additional Information Regarding Principal Investment Strategies

The Fund invests primarily in a diversified portfolio of equity securities that the Adviser believes offer growth opportunities at a reasonable price. The Adviser intends to pursue an investment blend of equity securities of growth companies and value companies. The Fund is not limited by a fixed allocation of assets to equity securities of either growth or value companies and, depending upon the economic environment and judgment of the Adviser, may invest in either growth companies or value companies to the exclusion of the other. The Adviser's assessment of a security's growth prospects and value (price) is based on several criteria, including:

- price to earnings
- price to cash flow
- rate of earnings growth
- consistency in past operating results
- quality of management, based on the Adviser's research
- present and projected industry position, based on the Adviser's research

The Adviser's research includes review of public information (such as annual reports); discussions with management, suppliers and competitors; and attending industry conferences.

Although the Fund may invest in companies of any size capitalization, the Fund intends to focus its investments in the equity securities of medium to large U.S. companies (defined by the Adviser as companies with market capitalizations above \$1 billion at the time of investment).

Certain sectors of the market are likely to be over-weighted compared to others because the Adviser focuses on sectors that it believes demonstrate the best fundamentals for growth at a reasonable price and value, which, in the Adviser's

opinion, will be leaders in the U.S. economy. The sectors in which the Fund may be over-weighted will vary at different points in the economic cycle.

The Fund may invest up to 20% of its net assets in foreign securities, including ADRs.

The Fund may invest in short- and long-term debt securities and convertible debt securities of U.S. companies if the Adviser believes that a company's debt securities offer more potential for long-term total return with less risk than an investment in the company's equity securities. The Fund may invest up to 25% of its net assets in "high-yield" fixed income securities rated at the time of purchase BB/Ba or lower by Standard & Poor's or Moody's or unrated but determined to be of comparable quality by the Adviser ("junk bonds"). The Fund may continue to hold securities that are further downgraded and would no longer qualify for initial investment.

The Fund also may invest up to 25% of its net assets in fixed-income securities issued or guaranteed by the U.S. Government, its agencies or instrumentalities, or by the Canadian Government and its governmental agencies. Some U.S. Government securities are supported by the full faith and credit of the U.S. Government. Other U.S. Government securities, though chartered or sponsored by Acts of Congress, are neither insured nor guaranteed by the U.S. Treasury.

The Fund may engage in short sales against-the-box. In a short sale, the seller sells a borrowed security, provides the lender collateral which is marked-to-market in an amount equal to the value of the security borrowed, and assumes an obligation to the lender to deliver the identical security at a certain time in the future. The Fund will not make short sales if, as a result, more than 20% of the Fund's net assets would be held as collateral for short sales.

The Fund typically sells a security when the Adviser's research indicates that there has been a deterioration in the company's fundamentals, such as changes in the company's competitive position or a lack of management focus. Company fundamentals are the factors reflective of a company's financial condition, including balance sheets and income statements, asset history, earnings history, product or service development and management productivity.

The Fund does not intend to purchase or sell securities for short-term trading purposes. However, if the objective of the Fund would be better served by doing so, the Fund may engage in active trading of the Fund's portfolio securities.

Temporary Defensive Position. In order to respond to adverse market, economic, political or other conditions, the Fund may assume a temporary defensive position that is inconsistent with its principal investment objective and/or strategies and may invest, without limitation, in cash or high-quality cash equivalents (including money market instruments, commercial paper, certificates of deposit, banker's acceptances and time deposits). A defensive position, taken at the wrong time, may have an adverse impact on the Fund's performance. The Fund may be unable to achieve its investment objective during the employment of a temporary defensive position.

Additional Information Regarding Principal Investment Risks

The Fund's net asset value ("NAV") and investment return will fluctuate based upon changes in the value of its portfolio. You could lose money on your investment in the Fund, and the Fund could underperform other investments. There is no guarantee that the Fund will meet its investment objective. An investment in the Fund is not a deposit of a bank and is not insured or guaranteed by the Federal Deposit Insurance Corporation or any other government agency.

Value Investment Risk. Value investing attempts to identify companies selling at a discount to their intrinsic value. Value investing is subject to the risk that a company's intrinsic value may never be fully realized by the market or that a company judged by the Adviser to be undervalued may not be undervalued.

Growth Company Risk. The Fund may invest in growth securities that are susceptible to rapid price swings, especially during periods of economic uncertainty. Because the prices of most growth stocks are based on future expectations, these stocks tend to be more sensitive than value stocks to bad economic news and negative earnings surprises. Growth stocks

typically have little or no dividend income to cushion the effect of adverse market conditions and may be particularly volatile in the event of earnings disappointments or other financial difficulties experienced by the issuer.

In addition, you could lose money on your investment if:

- The market does not recognize the growth potential or value of the stocks in the Fund's portfolio.
- Investor demand for growth stocks held by the Fund declines.
- There is deceleration in the expected growth rate of the companies in which the Fund invests.
- The Adviser's judgment as to the growth potential or value of a stock proves to be wrong.

Equity Risk. Equity securities, including common stocks, convertible securities, preferred stocks, warrants and sponsored and unsponsored ADRs may decline in value because of changes in price of a particular holding or a broad stock market decline. These fluctuations could be a drastic movement or a sustained trend. The value of a security may decline for a number of reasons that directly relate to the issuer of a security, such as management performance, financial leverage and reduced demand for the issuer's goods or services, or broader economic or market events, including changes in interest rates. Common stocks in general are subject to the risk of an issuer liquidating or declaring bankruptcy, in which case the claims of owners of the issuer's debt securities and preferred stock take precedence over the claims of common stockholders.

Sector Risk. The Fund may invest a higher percentage of its total assets in one or more sectors. The industries that comprise a sector may react similarly to changes in market conditions such as economic, political or regulatory events. Therefore, the value of the Fund's portfolio investments may be more sensitive to such events, which may result in greater risk to the Fund. For example, the health care sector is subject to government regulation and government approval of products and services, which could have a significant effect on price and availability. As another example, financial services companies are subject to extensive government regulation, and changes or proposed changes in these regulations may adversely impact the industry. In addition, the profitability of companies in the financial services industries can also be significantly affected by the cost of capital, changes in interest rates and price competition.

Mid Capitalization Company Risk. Investments in mid capitalization companies may entail greater risks, and their securities' prices may fluctuate more and have a higher degree of volatility than those of larger, more established companies. Securities of mid capitalization companies may be traded in lower volume and be less liquid. The general market may not favor mid capitalization companies in which the Fund invests and as a result the Fund could underperform the general market. Mid capitalization companies may have more limited product lines, markets and financial resources that make them more susceptible to economic and market setbacks. Additionally, information about these companies may not be readily available. These factors could adversely affect the Fund's ability to sell such securities at a desirable time and price.

Large Capitalization Company Risk. Investments in large capitalization companies may go in and out of favor based on market and economic conditions and may underperform other market segments. Some large capitalization companies may be unable to respond quickly to new competitive challenges or to attain the high growth rate of successful smaller companies, especially during extended periods of economic expansion. As such, returns on investments in stocks of large capitalization companies could trail the returns on investments in stocks of small and mid-sized capitalization companies.

Management Risk. The Fund is actively managed and its performance will reflect the Adviser's ability to make investment decisions that are suited to achieving the Fund's investment objective. Investments selected by the Adviser for the Fund may not perform to expectations. This could result in the Fund's underperformance compared to other funds with similar investment objectives. Further, the Fund's performance may deviate from overall market returns to a greater degree than funds that do not employ a similar strategy.

Market Events Risk. Turbulence in the financial markets and reduced liquidity in equity, credit and fixed-income markets may negatively affect issuers worldwide, which could have an adverse effect on the Fund. Geopolitical and similar disruptive events with geopolitical consequences, including pandemics and natural disasters, may destabilize world

economies and cause market turbulence. Trade barriers and other protectionist trade policies (including those in the U.S.) may also increase market turbulence. Similarly, policy changes by the Federal Reserve and/or other government actors, including changes in interest rates, could cause or increase volatility in the financial markets. Increases in market volatility may lead to reductions in market liquidity, which may make it more difficult for the Fund to purchase and sell portfolio holdings at favorable market prices and make the Fund's net asset value fluctuate materially. To the extent that the Fund experiences high redemptions during periods of market turbulence, the Fund's performance may be adversely affected as the Fund may not be able to sell portfolio holdings at favorable prices. In addition, the Fund may experience increased portfolio turnover, which will increase its costs and adversely impact its performance.

In late 2019 and early 2020, a global pandemic and policy changes implemented by the United Kingdom caused varying levels of market turbulence. Most significantly, an outbreak of severe acute respiratory disease from a novel coronavirus, COVID-19, was detected in China and spread internationally, resulting in major operational and market disruptions. Various countries closed their borders and internally imposed or recommended strict quarantines of exposed populations. Travel became restricted. Supply chains were disrupted, and consumer activity decreased. All of these changes in the world economy led to significant market uncertainty, heightened market volatility and reduced market liquidity. The final impact of COVID-19, and other epidemics and pandemics that may arise in the future, cannot be known at this time and may materially adversely affect issuers in which the Fund invests and the Fund itself.

In addition, the United Kingdom officially withdrew from the European Union ("EU") on January 31, 2020 in an act commonly referred to as "Brexit." The effect of Brexit on the United Kingdom and European economies will likely depend on the nature of trade relations between the United Kingdom and the EU and other major economies following Brexit, which are matters being negotiated. During a transition period that will extend to December 2020, subject to extension, the United Kingdom will have access to the EU single market and be subject to EU regulation.

Foreign Investments Risk. The value of foreign investments may be affected by risks in addition to those affecting domestic investments, including the imposition of new or amended government regulations, changes in diplomatic relations between the U.S. and another country, political and economic instability, the imposition or tightening of exchange controls or other limitations on repatriation of foreign capital or nationalization, trade barriers and other protectionist trade policies (including those in the U.S.) and/or increased taxation or confiscation of investors' assets. Investments in securities of foreign issuers are subject to fluctuations in the value of the issuer's local currency relative to the U.S. dollar and may be subject to foreign withholding and other taxes. Trading in foreign markets typically involves higher expense than trading in the United States. Settlement and clearance procedures in certain foreign markets may result in delays in payment or delivery of securities.

ADR Risk. Investing in ADRs may involve risks relating to political, economic or regulatory conditions in foreign countries where the underlying securities are traded. These risks include fluctuations in foreign currencies, political and financial instability, less liquidity, lack of uniform accounting, auditing and financial reporting standards and increased price volatility. The underlying securities are typically denominated (or quoted) in a currency other than U.S. dollars. The securities underlying ADRs may trade on foreign exchanges at times when U.S. markets are not open for trading. As a result, the value of ADRs may not track the price of the underlying foreign securities and may change materially at times when the U.S. markets are not open for trading. Unsponsored ADRs may involve additional risks, and their prices may be more volatile than the prices of sponsored ADRs.

Cash and Cash Equivalents Risk. To the extent the Fund holds cash and cash equivalents positions, even strategically, the Fund risks achieving lower returns and potential lost opportunities to participate in market appreciation, which could negatively impact the Fund's performance and ability to achieve its investment objective. This is particularly true when the market for other investments in which the Fund may invest is rapidly rising. Holding cash subjects the Fund to the credit risk of the depository institution.

Fixed-Income Securities Risk. The value of fixed-income (debt) securities depends generally on an issuer's credit rating and the interest rate of the security. Fixed-income securities are generally subject to the following risks:

Credit Risk. The financial condition or perceived financial condition of an issuer of a fixed-income security may cause the issuer to default or become unable to pay interest or principal due on the security. If an issuer defaults, a fixed-income security could lose all of its value, be renegotiated at a lower interest rate or principal amount or become illiquid. Generally, investment risk and price volatility increase as a fixed-income security's credit rating declines, which can cause the price of fixed-income securities to go down.

Interest Rate Risk. The value of fixed-income securities may decline due to changes in prevailing interest rates. An increase in interest rates typically causes a decrease in the value of fixed-income securities in which the Fund may invest. Fixed-income securities with longer durations tend to be more sensitive to changes in interest rates, generally making them more volatile than fixed-income securities with shorter durations. The Fund may be subject to a greater risk of rising interest rates due to the current period of historically low rates. The longer the duration of the Fund's debt securities, the more sensitive the Fund will be to interest rate changes.

High-Yield Securities Risk. Investments in "high-yield securities" or "junk bonds" are inherently speculative and have a greater risk of default than investments in investment grade fixed-income securities. Issuers of below-investment grade fixed-income securities are more likely to encounter and be materially affected by financial difficulties that may cause the issuer to default or otherwise become unable to pay interest or principal due on the security. Rising interest rates may compound such difficulties and reduce an issuer's ability to repay principal and interest. If an issuer defaults, a below-investment grade fixed-income security could lose all of its value, be renegotiated at a lower interest rate or principal amount or become illiquid. Below-investment grade fixed-income securities may be less liquid and more volatile than investment grade fixed-income securities and may be more difficult to value or sell. Furthermore, securities rated below investment grade frequently have redemption features that permit an issuer to repurchase the security from the Fund before it matures. If the issuer redeems the bonds, the Fund may have to invest the proceeds in bonds with lower yields and may lose income.

Convertible Securities Risk. Investments in convertible securities entail some of the risks of both equity and debt securities. The value of convertible securities tends to decline as interest rates rise and, because of the conversion feature, tends to vary with the fluctuations in the market value of the underlying securities or changes in the issuer's credit rating. Convertible securities often display a degree of market price volatility that is comparable to common stocks and are also subject to additional risks, including risk of default on interest or principal payments, which could result in a loss of income from or a decline in value of the securities. Convertible securities are subject to the risk that the credit rating of the issuer may have an effect on the convertible securities' investment value.

Short Selling Risk. The Fund may engage in short sales of securities by borrowing a security and then selling it. If the Fund buys back the security at a higher price, the Fund will incur a loss on the transaction. Short sales may involve additional transactions costs and other expenses that may exceed the return on the position, which may cause the Fund to lose money. Short sales may decrease the liquidity of certain securities or positions, or the Fund as a whole, and may lower the Fund's returns or result in a loss. A short sale may create leverage and as a result, may cause relatively smaller adverse market movement to have a disproportionate impact on the Fund's performance.

In addition, when the Fund is selling stocks short, it must maintain a segregated account with its custodian of cash and/or high-grade securities equal to the current market value of the stocks sold short less any collateral deposited with the Fund's broker. As a result, the Fund may maintain high levels of cash or liquid assets (such as U.S. Treasury bills, money market accounts, repurchase agreements, certificates of deposit, high quality commercial paper and long equity positions) for collateral needs.

Sovereign Debt Risk. A sovereign debtor's willingness and ability to repay principal and interest on issued debt securities may depend on, among other things, its cash flow situation, cash reserves, foreign exchange rates, the size of the debt service burden on the issuer's economy, its policy toward international lenders and political constraints. Sovereign debt risks are greater for emerging market issuers, and investors should be aware that certain emerging market countries are among the largest debtors to commercial banks and foreign governments. There is no legal process for collecting sovereign debt that a government does not pay nor are there bankruptcy proceedings through which all or part of the sovereign debt that a governmental entity has not repaid may be collected. Sovereign debt risk is increased for emerging

market issuers. At times, certain emerging market countries have declared moratoria on the payment of principal and interest on foreign debt obligations. Such countries have experienced difficulty serving their sovereign debt on a timely basis, resulting in defaults and restructurings of their debt.

U.S. Government Securities Risk. The Fund may invest in U.S. Government securities which may be backed by the U.S. Department of the Treasury or the full faith and credit of the U.S., and may include U.S. Treasury bills, Treasury Inflation-Protected Securities, notes and bonds. These securities are guaranteed only as to the timely payment of interest and principal when held to maturity. The market prices for such securities are not guaranteed and will fluctuate. Not all U.S. Government obligations are backed by the full faith and credit of the U.S. Department of the Treasury. Certain U.S. Government agency securities are backed by the right of the issuer to borrow from the U.S. Department of the Treasury, or are supported only by the credit of the issuing agency or instrumentality, and subject to greater risk of default by the issuer. In addition, because many types of U.S. Government obligations trade actively outside the United States, their prices may rise and fall as changes in global economic conditions affect the demand for these securities.

Who May Want to Invest in the Fund

The Fund may be suitable for:

- Long-term investors seeking a fund with a growth investment strategy; or
- Investors who can tolerate the greater risks associated with common stock investments.

MANAGEMENT

The Auxier Focus Fund (the “Fund”) is a series of Forum Funds (the “Trust”), an open-end, management investment company (mutual fund). The Board of Trustees (the “Board”) oversees the management of the Fund and meets periodically to review the Fund’s performance, monitor investment activities and practices and discuss other matters affecting the Fund. Additional information regarding the Board and the Trust’s executive officers may be found in the Fund’s Statement of Additional Information (the “SAI”), which is available on the Adviser’s website at www.auxierasset.com.

Investment Adviser

The Fund’s investment adviser is Auxier Asset Management LLC (the “Adviser”), 15668 NE Eilers Road, Aurora, Oregon 97002. The Adviser is a registered investment adviser under the Investment Advisers Act of 1940 and provides investment advisory services to the Fund. As of September 30, 2020, the Adviser had approximately \$713 million of assets under management, which included approximately \$87 million in pension consulting.

Subject to the general oversight of the Board, the Adviser makes investment decisions for the Fund pursuant to an investment advisory agreement between the Adviser and the Trust, on behalf of the Fund (the “Advisory Agreement”). The Adviser receives an advisory fee from the Fund at an annual rate equal to 0.80% of the Fund’s average annual daily net assets under the terms of the Advisory Agreement.

The actual advisory fee rate retained by the Adviser for the fiscal year ended June 30, 2020 was 0.63%.

The Adviser has contractually agreed to waive its fee and/or reimburse Fund expenses to limit the Fund’s Total Annual Fund Operating Expenses After Fee Waiver and/or Expense Reimbursement (excluding all taxes, interest, portfolio transaction expenses, dividend expenses on short sales, and extraordinary expenses) to 0.92% of Investor Shares, 1.25% of A Shares and 0.80% of Institutional Shares through at least October 31, 2021 (“Expense Cap”). The Expense Cap may only be raised or eliminated with the consent of the Board of Trustees. The Adviser may recoup from the Fund fees waived and expenses reimbursed by the Adviser pursuant to the Expense Cap if such recoupment is made within three years of the fee waiver or expense reimbursement and does not cause the Total Annual Fund Operating Expenses After Fee Waiver and/or Expense Reimbursement of a class (after the recoupment has been taken into account) to exceed the lesser of (i) the then-current expense cap and (ii) the expense cap in place at the time the fees/expenses were waived or reimbursed. Total Annual Fund Operating Expenses After Fee Waiver and/or Expense Reimbursement will increase if exclusions from the Expense Cap apply.

A discussion summarizing the basis on which the Board last approved the Advisory Agreement is included in the Fund’s semi-annual report for the period ended December 31, 2019.

Portfolio Manager

J. Jeffrey Auxier, President and Chief Investment Officer of the Adviser since its inception in 1998, is responsible for the day-to-day management of the Fund. He has been Portfolio Manager of the Fund since its inception in 1999. He is a graduate of the University of Oregon and began his investment career in 1982. Mr. Auxier has extensive money management experience. As a portfolio manager with Smith Barney, Mr. Auxier managed money for high net worth clients on a discretionary basis from 1988 until he founded the Adviser in July 1998. In 1993, Mr. Auxier was designated a Smith Barney Senior Portfolio Management Director, the highest rank in the company’s Portfolio Management Program, and was chosen as the top Portfolio Manager from among 50 Portfolio Managers in the Smith Barney Consulting Group. Mr. Auxier was a Senior Vice President with Smith Barney when he left to found the Adviser.

The SAI provides additional information about the compensation of the Portfolio Manager, other accounts managed by the Portfolio Manager and the ownership of Fund shares by the Portfolio Manager.

Other Service Providers

Atlantic Fund Administration, LLC, a wholly owned subsidiary of Apex US Holdings LLC (d/b/a Apex Fund Services) (“Apex”), provides fund accounting, fund administration, and compliance services to the Fund and the Trust and supplies certain officers of the Trust, including a Principal Executive Officer, a Principal Financial Officer, a Chief Compliance Officer, an Anti-Money Laundering Compliance Officer and additional compliance support personnel. Atlantic Shareholder Services, LLC, a wholly owned subsidiary of Apex, provides transfer agency services to the Fund and the Trust.

Foreside Fund Services, LLC (the “Distributor”), the Trust’s principal underwriter, acts as the Trust’s distributor in connection with the offering of Fund shares. The Distributor may enter into arrangements with banks, broker-dealers and other financial intermediaries through which investors may purchase or redeem shares. The Distributor is not affiliated with the Adviser or with Apex Fund Services or their affiliates.

Fund Expenses

The Fund is charged for those expenses that are directly attributable to it, while other expenses are allocated proportionately among the Fund and other series of the Trust based upon methods approved by the Board. Expenses that are directly attributable to a specific class of shares, such as distribution fees and shareholder servicing fees, are charged directly to that class. The Adviser or other service providers may waive all or any portion of their fees and may reimburse certain expenses of the Fund. Service provider waivers may be different in dollar and percentage amount for different classes of the Fund, as applicable, may be voluntary, and do not affect the Adviser’s contractual waiver. Any agreement to waive a portion of fees or to reimburse expenses increases the investment performance of the applicable Fund and its share classes for the period during which the waiver or reimbursement is in effect. Current Adviser fee waiver and/or expense reimbursements are reflected in the section titled “Fees and Expenses.”

YOUR ACCOUNT

How to Contact the Fund

E-mail the Fund at:
auxierasset.ta@apexfs.com

Website Address:
www.auxierasset.com

Telephone the Fund at:
(877) 328-9437 (toll free)

Write the Fund:

Three Canal Plaza, Ground Floor
Portland, Maine 04101

Wire investments (or ACH payments):
Please contact the transfer agent at (877) 3-AUXIER or (877) 328-9437 (toll free) to obtain the ABA routing number and account number for the Fund.

General Information

You may purchase or sell (redeem) shares of the Fund on any day that the NYSE is open for business. Notwithstanding this fact, the Fund may, only in the case of an emergency, calculate its net asset value (“NAV”) and accept and process shareholder orders when the NYSE is closed.

You may purchase or sell shares of the Fund at the next NAV calculated (normally 4:00 p.m., Eastern Time) after the transfer agent or your approved broker-dealer or other financial intermediary receives your request in good order. “Good order” means that you have provided sufficient information necessary to process your request as outlined in this Prospectus, including any required signatures, documents, payment and Medallion Signature Guarantees. All requests to purchase or sell Fund shares received in good order prior to the Fund’s close will receive that day’s NAV. Requests received in good order after the Fund’s close or on a day when the Fund does not value its shares will be processed on the next business day and will be priced at the next NAV. The Fund cannot accept orders that request a particular day or price for the transaction or any other special conditions.

Shares of the Fund will only be issued against full payment, as described more fully in this Prospectus and the SAI. The Fund does not issue share certificates.

If you purchase shares directly from the Fund, you will receive a confirmation of each transaction and quarterly statements detailing

Fund balances and all transactions completed during the prior quarter. Automatic reinvestments of distributions and systematic investments and withdrawals may be confirmed only by quarterly statement. You should verify the accuracy of all transactions in your account as soon as you receive your confirmations and quarterly statements.

The Fund may temporarily suspend or discontinue any service or privilege, including systematic investments and withdrawals, wire redemption privileges and telephone or internet redemption privileges, if applicable. The Fund reserves the right to refuse any purchase request, including, but not limited to, requests that could adversely affect the Fund or its operations. If the Fund were to refuse any purchase request, it would notify the purchaser within two business days of receiving a purchase request in good order.

If your account is deemed abandoned or unclaimed by applicable state law, the Fund may be required to “escheat” or transfer the property to the appropriate state’s unclaimed property administration. Certain states have laws that allow shareholders to name a representative to receive notice of abandoned property (“escheatment”) by submitting a designation form, which generally can be found on the official state website. In such states, if a shareholder designates a representative to receive escheatment notices, any notice generally will be delivered as required by the state’s laws. A completed designation form should be mailed to the Fund (if shares are held directly with the Fund) or to the shareholder’s financial intermediary. Shareholders should check their state’s official website to get more information on escheatment law(s).

NAV Determination. The NAV of the Fund (or share class) is determined by taking the value of the assets of the Fund (or share class), subtracting the value of the liabilities of the Fund (or share class) and then dividing the result (net assets) by the number of outstanding shares of the Fund (or share class). The Fund calculates its NAV as of the close of trading on the NYSE (generally 4:00 p.m., Eastern Time). The NYSE is open every weekday other than NYSE holidays and early closings, which are published at www.nyse.com and subject to change without notice.

To the extent that the Fund's portfolio investments trade in markets on days when the Fund is not open for business, the value of the Fund's assets may vary on those days. In addition, trading in certain portfolio investments may not occur on days when the Fund is open for business, as markets or exchanges other than the NYSE may be closed.

The Fund values securities at current market value, where market quotations are available, using the last reported sales price or the official closing price, as provided by independent pricing services. In the absence of sales, securities are valued at the mean of the last bid and asked prices. Non-exchange traded investment companies are valued at their NAVs. Certain short-term securities may be valued at amortized cost.

If market quotations are not readily available or the Fund reasonably believes that they are unreliable, the Fund will seek to value such securities at fair value, as determined in good faith using procedures approved by the Board. The Board has delegated day-to-day responsibility for fair valuation determinations in accordance with these procedures to a Valuation Committee. The Valuation Committee makes such determinations under the supervision of the Board. Fair valuation may be based on subjective factors. As a result, the fair value price of a security may differ from that security's market price and may not be the price at which the security may be sold. Fair valuation could result in a different NAV than a NAV determined by using market quotations.

Although the Fund generally prices its foreign securities using their closing prices from the foreign markets where they trade (typically prior to the Fund's calculation of its NAV), these prices may be affected by events that occur after the close of the foreign market but before the Fund prices its shares. As a result, the Fund's investments in foreign securities are more likely to require a fair value determination than investments in domestic securities. In determining fair value prices of foreign securities, the Fund may consider the performance of securities on their primary exchanges, foreign currency appreciation or depreciation, securities market movements in the U.S. and other relevant information as related to the securities.

Fixed-income securities may be valued at prices supplied by the Fund's pricing agent based on broker-supplied or dealer-supplied valuations or on matrix pricing, a method of valuing securities by reference to the value of other securities with similar characteristics, such as rating, interest rate and maturity.

Transactions Through Financial Intermediaries. The Fund has authorized certain financial services companies, broker-dealers, banks and other agents, including the designees of such entities (collectively, "financial intermediaries"), to accept purchase and redemption orders on the Fund's behalf. If you invest through a financial intermediary, the policies and fees of the financial intermediary may be different from the policies and fees you would be subject to if you had invested directly in the Fund. Among other things, financial intermediaries may charge transaction fees and may set different minimum investment restrictions or limitations on buying or selling Fund shares. You should consult your broker or another representative of your financial intermediary for more information.

The Fund will be deemed to have received a purchase or redemption order when a financial intermediary that is an agent of the Fund for the purpose of accepting orders receives the order. All orders to purchase or sell shares are processed as of the next NAV calculated after the order has been received in good order by a financial intermediary. Orders are accepted until the close of trading on the NYSE every business day (normally 4:00 p.m., Eastern Time) and are processed, including by financial intermediaries, at that day's NAV.

Payments to Financial Intermediaries. The Fund, at its own expense, may pay additional compensation to financial intermediaries for shareholder-related services, including administrative, recordkeeping and shareholder communication services. In addition, pursuant to any applicable Rule 12b-1 plan, the Fund may pay compensation to financial intermediaries for distribution-related services. For example, compensation may be paid to make Fund shares available to sales representatives and/or customers of a fund supermarket platform or a similar program sponsor or for services provided in connection with such fund supermarket platforms and programs. To the extent that the Fund pays all or a portion of such compensation, the payment is designed to compensate the financial intermediary for distribution activities or for providing services that would otherwise be provided by the Fund's transfer agent and/or administrator.

The Adviser or another Fund affiliate, out of its own resources and not as an expense of the Fund, may provide additional compensation to financial intermediaries. Such compensation is sometimes referred to as “revenue sharing.” Compensation received by a financial intermediary from the Adviser or another Fund affiliate may include payments for shareholder servicing, marketing and/or training expenses incurred by the financial intermediary, including expenses incurred by the financial intermediary in educating its salespersons with respect to Fund shares. For example, such compensation may include reimbursements for expenses incurred in attending educational seminars regarding the Fund, including travel and lodging expenses. It may also cover costs incurred by financial intermediaries in connection with their efforts to sell Fund shares, including costs incurred in compensating registered sales representatives and preparing, printing and distributing sales literature.

The amount of compensation paid to different financial intermediaries may vary. The compensation paid to a financial intermediary may be based on a variety of factors, including average assets under management in accounts distributed and/or serviced by the financial intermediary, gross sales by the financial intermediary and/or the number of accounts serviced by the financial intermediary that invest in the Fund.

Any compensation received by a financial intermediary, whether from the Fund, the Adviser or another affiliate, and the prospect of receiving such compensation, may provide the financial intermediary with an incentive to recommend the shares of the Fund, or a certain class of shares of the Fund, over other potential investments. Similarly, the compensation may cause financial intermediaries to elevate the prominence of the Fund within its organization by, for example, placing it on a list of preferred funds.

Anti-Money Laundering Program. Customer identification and verification are part of the Fund’s overall obligation to deter money laundering under federal law. The Trust’s Anti-Money Laundering Program is designed to prevent the Fund from being used for money laundering or the financing of terrorist activities. In this regard, the Fund reserves the right, to the extent permitted by law, (1) to refuse, cancel or rescind any purchase order or (2) to freeze any account and/or suspend account services. These actions will be taken when, at the sole discretion of Trust management, they are deemed to be in the best interest of the Fund or in cases when the Fund is requested or compelled to do so by governmental or law enforcement authorities or applicable law. If your account is closed at the request of governmental or law enforcement authorities, you may not receive proceeds of the redemption if the Fund is required to withhold such proceeds.

Disclosure of Portfolio Holdings. A description of the Fund’s policies and procedures with respect to the disclosure of portfolio securities is available in the Fund’s SAI, which is available on the Adviser’s website at www.auxierasset.com.

Choosing a Share Class

The Fund offers three classes of shares: Investor Shares, A Shares and Institutional Shares. Each class has a different combination of purchase restrictions and ongoing fees, allowing you to choose the class that best meets your needs.

Investor Shares. Investor Shares of the Fund are sold to retail investors who invest in the Fund directly or through a fund supermarket or other investment platform. Investor Shares are sold without the imposition of initial sales charges and are not subject to Rule 12b-1 fees. The minimum initial investment accepted to purchase Investor shares is lower than the minimum initial investment required for Institutional Shares.

A Shares. A Shares of the Fund are sold to retail investors in the Fund through financial intermediaries. A Shares are sold with an initial sales charge of up to 5.75% and are subject to a Rule 12b-1 fee up to 0.25% of the A Shares’ portion of the Fund’s average daily net assets. The minimum initial investment accepted to purchase A Shares is lower than the initial minimum investment required for Institutional Shares and Investor Shares.

Institutional Shares. Institutional Shares of the Fund are designed for individual investors who meet the minimum investment threshold and for institutional investors (such as investment advisers, financial institutions, corporations, trusts, estates and religious and charitable organizations) investing for proprietary programs and firm discretionary

accounts. Institutional Shares are sold without the imposition of initial sales charges and are not subject to Rule 12b-1 fees.

	Investor Shares	A Shares	Institutional Shares
Minimum Initial Investment	\$5,000	\$2,000	\$250,000
Sales Charges	None	up to 5.75%	None
Rule 12b-1 Distribution Fees	None	up to 0.25%	None

Fees vary considerably between the Fund's classes. You should carefully consider the differences in the classes' fee structures and the length of time you wish to invest before choosing which class to purchase. Please review the Fees and Expense Table for the applicable class before investing in the Fund. You may also want to consult with a financial adviser in order to help you determine which class is most appropriate to you.

Under certain circumstances, an investor's investment in one class of shares of the Fund may be converted into an investment in the other class of shares of the Fund. No gain or loss will generally be recognized for federal income tax purposes as a result of such a conversion, and a shareholder's basis in the acquired shares will be the same as such shareholder's basis in the converted shares. Shareholders should consult their tax advisors regarding the state and local tax consequences of such a conversion, or any exchange of shares.

Distribution and Shareholder Service Fees. The Trust has adopted a Rule 12b-1 plan under which the Fund pays the Distributor a fee up to 0.25% of the average daily net assets of A Shares for distribution services and/or the servicing of shareholder accounts.

Because the A Shares pays distribution fees on an ongoing basis, over time these fees will increase the cost of your investment and may cost you more than paying other types of sales charges. The Distributor may pay any fee received under the Rule 12b-1 plan to the Adviser or other financial intermediaries that provide distribution and shareholder services with respect to A Shares.

In addition to paying fees under the Rule 12b-1 plan, the Fund may pay service fees to financial intermediaries for administration, recordkeeping and other shareholder services associated with shareholders whose shares are held of record in omnibus accounts, other group accounts or accounts traded through registered securities clearing agents. If the Fund pays shareholder service fees on an ongoing basis, over time these fees will increase the cost of your investment.

Sales Charge Schedule

A Shares. A Shares are available through registered broker-dealers, investment advisers, banks and other financial institutions. A Shares are sold at the public offering price, which is the NAV per share plus any initial sales charge as described below. Unless waived or discounted, you pay an initial sales charge on purchases of A Shares. No sales charge is assessed on the reinvestment of A Shares' distributions. This Prospectus, including this information regarding A Shares sales charges and information concerning the purchase of shares, is available free of charge on the Adviser's website at www.auxierasset.com.

Breakpoints. The Fund offers you the benefit of discounts on the sales charges that apply to purchases of A Shares in certain circumstances. These discounts, which are also known as breakpoints, can reduce or, in some instances, eliminate the initial sales charges that would otherwise apply to your A Share investment. Mutual funds are not required to offer breakpoints and different mutual fund groups may offer different types of breakpoints. Breakpoints allow larger investments in A Shares to be charged lower sales charges. If you invest \$50,000 or more in A Shares of the Fund, then you are eligible for a reduced sales charge.

Amount of Purchase	Sales Charge (Load) as a % of:		
	Public Offering Price	Net Amount Invested ⁽¹⁾	Dealer Reallowance %
\$0 but less than \$50,000	5.75%	6.10%	5.00%
\$50,000 but less than \$100,000	5.00%	5.26%	4.25%
\$100,000 but less than \$250,000	4.25%	4.44%	3.50%
\$250,000 but less than \$500,000	3.50%	3.63%	2.75%
\$500,000 but less than \$1,000,000	2.75%	2.83%	2.00%
\$1,000,000 and up	0.00%	0.00%	0.00% ⁽²⁾

⁽¹⁾ Rounded to the nearest one hundredth percent. Because of rounding of the calculation in determining sales charges, the charges may be more or less than shown in the table.

⁽²⁾ You pay no initial sales charge on purchases of A Shares in the amount of \$1 million or more, and on purchases made through certain intermediaries. On these purchases, brokers who initiate and are responsible for purchases of \$1 million or more may receive a sales commission of up to 1.00% of the offering price of A Shares. A Shares are subject to a 12b-1 fee of 0.25% of the NAV. If you purchased your A Shares without a sales charge and you redeem your A Shares within one year of purchase, you will be subject to a 1.00% Contingent Deferred Sales Charge (“CDSC”). Any shares acquired by reinvestment of distributions will be redeemed without a CDSC.

Reduced Sales Charges – A Shares. You may qualify for a reduced initial sales charge on purchases of the Fund’s A Shares under rights of accumulation (“ROA”) or a letter of intent (“LOI”). The transaction processing procedures maintained by certain financial institutions through which you can purchase Fund shares may restrict the universe of accounts considered for purposes of calculating a reduced sales charge under ROA or LOI. For example, the processing procedures of a financial institution may limit accounts to those that share the same tax identification number or mailing address and that are maintained only with that financial institution. The Fund permits financial institutions to calculate ROA and LOI based on the financial institution’s transaction processing procedures. Please contact your financial institution before investing to determine the process used to identify accounts for ROA and LOI purposes.

To determine the applicable reduced sale charge under ROA, the Fund will combine the value of your current purchase with the value of all share classes of any other series of the Trust managed by the Adviser (as of the Fund’s prior business day) and that were purchased previously for accounts (1) in your name, (2) in your spouse’s name, (3) in the name of you and your spouse (4) in the name of your minor children under the age of 21, and (5) sharing the same mailing addresses (“Accounts”).

To be entitled to a reduced sales charge based on shares already owned, you must ask us for the reduction at the time of purchase. You must also provide the Fund with your account number(s) and, if applicable, the account numbers for your spouse, children (provide the children’s ages), or other household members and, if requested by your financial institution, the following additional information regarding those Accounts:

- Information or records regarding A Shares held in all accounts in your name at the transfer agent;
- Information or records regarding A Shares held in all accounts in your name at a financial intermediary; and
- You should retain any records necessary to substantiate historical costs because the Fund, its transfer agent and financial intermediaries may not maintain this information.

The Fund may amend or terminate this right of accumulation at any time.

If you intend to purchase at least \$50,000 of A Shares of the Fund, you may wish to complete the LOI section of your account application form. By doing so, you agree to invest a certain amount over a 13-month period. You would pay a sales charge on any A Shares you purchase during the 13 months based on the total amount to be invested under the LOI. You can apply any investments you made in the Fund during the preceding 90-day period toward fulfillment of the LOI (although there will be no refund of sales charges you paid during the 90-day period).

You are not obligated to purchase the dollar amount specified in the LOI. If you purchase less than the dollar amount specified, however, you must pay the difference between the sales charge paid and the sales charge applicable to the purchases actually made. The Fund’s transfer agent will hold such amount of shares in escrow. The transfer agent

will credit the escrowed funds to your account at the end of the 13 months unless you do not complete your intended investment.

Elimination of Initial Sales Charges – A Shares. Certain persons may also be eligible to purchase or redeem A Shares without a sales charge. No sales charge is assessed on the reinvestment of A Shares’ distributions. No sales charge is assessed on purchases made for investment purposes by:

- A qualified retirement plan under Section 401(a) of the Internal Revenue Code of 1986, as amended (“IRC”) or a plan operating consistent with Section 403(b) of the IRC;
- Any bank, trust company, savings institution, registered investment adviser, financial planner or securities dealer on behalf of an account for which it provides advisory or fiduciary services pursuant to an account management fee;
- Trustees and officer of the Trust, directors, officers and full-time employees of the Adviser, any trust or individual retirement account or self-employed retirement plan for the benefit of any such person or relative; or the estate of any such person or relative; and
- Any person who has, within the preceding 90 days, redeemed Fund shares through a financial institution and completes a reinstatement form upon investment with that financial institution (but only on purchases in amounts not exceeding the redeemed amounts).

Purchases of A Shares in an amount equal to investments of \$1 million or more are not subject to an initial sales charge, but may be subject to a contingent deferred sales charge of 1.00% if such shares are redeemed within one year of purchase. In addition to the waivers previously discussed, purchases of A Shares in an amount less than \$1 million may be eligible for a waiver of the sales charge if they are made through certain intermediaries, or by investors who participate in certain wrap fee investment programs or certain retirement programs sponsored by broker dealers or other service organizations which have entered into service agreements with the Fund or a dealer agreement with the Distributor. Such programs generally have other fees and expenses, so you should read any materials provided by that organization. The Fund requires appropriate documentation of an investor’s eligibility to purchase or redeem A Shares without a sales charge. Any shares so purchased may not be resold except to the Fund.

Contingent Deferred Sales Charge Schedule – A Shares. A CDSC may be assessed on redemptions of A Shares that were part of a purchases of \$1 million or more. The CDSC is assessed as follows:

Redeemed Within	Sales Charge
First Year of Purchase	1.00%
Thereafter	0.00%

The CDSC is paid on the lower of the NAV of shares redeemed or the cost of the shares. To satisfy a redemption request, the Fund will first liquidate shares that are not subject to a CDSC such as shares acquired with reinvested dividends and capital gains. The Fund will then liquidate shares in the order that they were first purchased until your redemption request is satisfied.

CDSC Exempt Transactions. With respect to A Shares of the Fund, certain redemptions are not subject to a contingent deferred sales charge. No such charge is imposed on:

- Redemptions of shares acquired through the reinvestment of dividends and distributions;
- Involuntary redemptions by the Fund of a shareholder account with a low account balance;
- Involuntary redemptions by the Fund of a shareholder account if the Fund or its agents reasonably believes that fraudulent or illegal activity is occurring or is about to occur in the account;
- Redemptions of shares following the death or disability of a shareholder if the Fund is notified within one year of the shareholder’s death or disability;
- Redemptions to effect a distribution (other than a lump sum distribution) from a qualified retirement plan under Section 401(a) of the IRC or a plan operating consistent with Section 403(b) of the IRC in connection with loan, hardship withdrawals, death, disability, retirement, change of employment, or an excess contribution; and required distributions from an IRA or other retirement account after the accountholder reaches the age of 70½.

For these purposes, the term disability shall have the meaning ascribed thereto in Section 72(m)(7) of the IRC. Under that provision, a person is considered disabled if the person is unable to engage in any gainful substantial activity by reason of any medically determinable physical or mental impairment which can be expected to result in death or to be of long-continued and indefinite duration. Appropriate documentation satisfactory to the Fund is required to substantiate any shareholder death or disability.

Buying Shares

How to Make Payments. Unless purchased through a financial intermediary, all investments must be made by check, Automated Clearing House (“ACH”) or wire. All checks must be payable in U.S. dollars and drawn on U.S. financial institutions. In the absence of the granting of an exception consistent with the Trust’s Anti-Money Laundering Program, the Fund does not accept purchases made by credit card check, starter check, checks with more than one endorsement (unless the check is payable to all endorsees), cash or cash equivalents (for instance, you may not pay by money order, cashier’s check, bank draft or traveler’s check). The Fund and the Adviser also reserve the right to accept in kind contributions of securities in exchange for shares of the Fund.

Checks. Checks must be made payable to “Auxier Focus Fund”. For individual, sole proprietorship, joint, Uniform Gifts to Minors Act (“UGMA”) and Uniform Transfers to Minors Act (“UTMA”) accounts, checks may be made payable to one or more owners of the account and endorsed to “Auxier Focus Fund”. A \$20 charge may be imposed on any returned checks.

ACH. The Automated Clearing House system maintained by the Federal Reserve Bank allows banks to process checks, transfer funds and perform other tasks. Your U.S. financial institution may charge you a fee for this service.

Wires. You may instruct the U.S. financial institution with which you have an account to make a federal funds wire payment to the Fund. Your U.S. financial institution may charge you a fee for this service.

Minimum Investments. The Fund accepts investments in the following minimum amounts:

	Minimum Initial Investments	Minimum Additional Investment
Investor Shares		
Standard Accounts	\$5,000	\$50
Retirement Accounts	\$3,000	\$50
A Shares		
Standard Accounts	\$2,000	\$50
Retirement Accounts	\$2,000	\$50
Institutional Shares		
Standard Accounts	\$250,000	None
Retirement Accounts	\$250,000	None

The Fund reserves the right to waive minimum investment amounts, if deemed appropriate by an officer of the Trust.

Registered investment advisers and financial planners may be permitted to aggregate the value of accounts in order to meet minimum investment amounts.

Account Requirements. The following table describes the requirements to establish certain types of accounts in the Fund.

Type of Account	Requirement
<p>Individual, Sole Proprietorship and Joint Accounts</p> <ul style="list-style-type: none"> Individual accounts and sole proprietorship accounts are owned by one person. Joint accounts have two or more owners (tenants). 	<ul style="list-style-type: none"> Instructions must be signed by all persons named as account owners exactly as their names appear on the account.
<p>Gifts or Transfers to a Minor (UGMA, UTMA)</p> <ul style="list-style-type: none"> These custodial accounts are owned by a minor child but controlled by an adult custodian. 	<ul style="list-style-type: none"> Depending on state laws, you may set up a custodial account under the UGMA or the UTMA. The custodian must sign instructions in a manner indicating custodial capacity.
<p>Corporations/Other Entities</p> <ul style="list-style-type: none"> These accounts are owned by the entity, but control is exercised by its officers, partners or other management. 	<ul style="list-style-type: none"> The entity should submit a certified copy of its articles of incorporation (or a government-issued business license or other document that reflects the existence of the entity) and a corporate resolution or a secretary's certificate.
<p>Trusts</p> <ul style="list-style-type: none"> These accounts are controlled by a trustee as a way to convey and control assets for the benefit of a third-party owner. 	<ul style="list-style-type: none"> The trust must be established before an account may be opened. The trust should provide the first and signature pages from the trust document identifying the trustees.

Account Application and Customer Identity Verification. To help the government fight the funding of terrorism and money laundering activities, federal law requires financial institutions to obtain, verify and record information that identifies each person who opens an account.

When you open an account, the Fund will ask for your first and last name, U.S. taxpayer identification number (“TIN”), physical street address, date of birth and other information or documents that will allow the Fund to identify you. If you do not supply the required information, the Fund will attempt to contact you or, if applicable, your financial adviser. If the Fund cannot obtain the required information within a timeframe established in its sole discretion, your application will be rejected.

When your application is in good order and includes all required information, your order will normally be processed at the NAV next calculated after receipt of your application and investment amount. The Fund will attempt to verify your identity using the information that you have supplied and other information about you that is available from third parties, including information available in public and private databases, such as consumer reports from credit reporting agencies.

The Fund will try to verify your identity within a timeframe established in its sole discretion. If the Fund cannot do so, the Fund reserves the right to redeem your investment at the next NAV calculated after the Fund decides to close your account. If your account is closed, you may realize a gain or loss on the Fund shares in the account. You will be responsible for any related taxes and will not be able to recoup any redemption fees assessed, if applicable.

Policy on Prohibition of Foreign Shareholders. The Fund requires that all shareholders be U.S. persons or U.S. resident aliens with a valid TIN (or show proof of having applied for a TIN and commit to provide a valid TIN within 60 days) in order to open an account with the Fund.

Investment Procedures. The following table describes the procedures for investing in the Fund.

How to Open an Account	How to Add to Your Account
<p>Through a Financial Intermediary</p> <ul style="list-style-type: none">• Contact your financial intermediary using the method that is most convenient for you.	<p>Through a Financial Intermediary</p> <ul style="list-style-type: none">• Contact your financial intermediary using the method that is most convenient for you.
<p>By Check</p> <ul style="list-style-type: none">• Call, write or e-mail the Fund or visit the Fund’s website for an account application.• Complete the application (and other required documents, if applicable).• Mail the Fund your original application (and other required documents, if applicable) and a check.	<p>By Check</p> <ul style="list-style-type: none">• Fill out an investment slip from a confirmation or write the Fund a letter.• Write your account number on your check.• Mail the Fund the investment slip or your letter and the check.
<p>By Wire</p> <ul style="list-style-type: none">• Call, write or e-mail the Fund or visit the Fund’s website for an account application.• Complete the application (and other required documents, if applicable).• Call the Fund to notify the transfer agent that you are faxing your completed application (and other required documents, if applicable). The transfer agent will assign you an account number.• Mail the Fund your original application (and other required documents, if applicable).• Instruct your U.S. financial institution to wire money to the Fund.	<p>By Wire</p> <ul style="list-style-type: none">• Instruct your U.S. financial institution to wire money to the Fund.
<p>By ACH Payment (for Investor Shares and A Shares only)</p> <ul style="list-style-type: none">• Call, write or e-mail the Fund or visit the Fund’s website for an account application.• Complete the application (and other required documents, if applicable).• Call the Fund to notify the transfer agent that you are faxing your completed application (and other required documents, if applicable). The transfer agent will assign you an account number.• Mail the Fund your original application (and other required documents, if applicable).• The transfer agent will electronically debit your purchase proceeds from the U.S. financial institution identified on your account application.• ACH purchases are limited to \$25,000 per day.	<p>By ACH Payment</p> <ul style="list-style-type: none">• Call the Fund to request a purchase by ACH payment.• The transfer agent will electronically debit your purchase proceeds from the U.S. financial institution account identified on your account application.• ACH purchases are limited to \$25,000 per day.
<p>By Internet (for Investor Shares and A Shares only)</p> <ul style="list-style-type: none">• Access the Fund website.• Complete the application online.• The transfer agent will electronically debit your purchase proceeds from the U.S. financial institution account identified on your account application. The account opening amount is limited to \$25,000 (if you would like to invest more than \$25,000, you may make the investment by check or wire).	<p>By Internet</p> <ul style="list-style-type: none">• Log on to your account from the Fund website.• Select the “Purchase” option under the “Account Listing” menu.• Follow the instructions provided.• The transfer agent will electronically debit your purchase proceeds from the U.S. financial institution account identified on your account application. Subsequent purchases are limited to \$25,000 per day (if you would like to invest more than \$25,000, you may make the investment by check or wire).

Systematic Investments. You may establish a systematic investment plan to automatically invest a specific amount of money (up to \$25,000 per day) into your account on a specified day and frequency not to exceed two investments per month. Payments for systematic investments are automatically debited from your designated savings or checking account via ACH. Systematic investments must be for at least \$50 per occurrence. If you wish to enroll in a systematic investment plan, complete the appropriate section on the account application. Your signed account application must be received at least three business days prior to the initial transaction. The Fund may terminate or modify this privilege at any time. You may terminate your participation in a systematic investment plan by notifying the Fund at least two days in advance of the next withdrawal.

A systematic investment plan is a method of using dollar cost averaging as an investment strategy that involves investing a fixed amount of money at regular time intervals. However, a program of regular investment cannot ensure a profit or protect against a loss as a result of declining markets. By continually investing the same amount, you will be purchasing more shares when the price is lower and fewer shares when the price is higher. Please call (877) 3-AUXIER or (877) 328-9437 (toll free) for additional information regarding systematic investment plans.

Limitations on Frequent Purchases. The Board has adopted policies and procedures with respect to frequent purchases and redemptions of Fund shares by Fund shareholders. It is the Fund's policy to discourage short-term trading. Frequent trading in the Fund, such as traders seeking short-term profits from market momentum, time zone arbitrage and other timing strategies may interfere with the management of the Fund's portfolio and result in increased administrative and brokerage costs and a potential dilution in the value of Fund shares. As money is moved in and out, the Fund may incur expenses buying and selling portfolio securities and these expenses are borne by Fund shareholders. The Fund does not permit market timing and will not knowingly accommodate trading in Fund shares in violation of these policies.

Focus is placed on identifying redemption transactions which may be harmful to the Fund or its shareholders if they are frequent. These transactions are analyzed for offsetting purchases within a predetermined period of time. If frequent trading trends are detected, an appropriate course of action may be taken. The Fund reserves the right to cancel, restrict or reject without any prior notice, any purchase order, including transactions representing excessive trading, transactions that may be disruptive to the management of the Fund's portfolio, and purchase orders not accompanied by payment.

Because the Fund receives purchase and sale orders through financial intermediaries that use omnibus or retirement accounts, the Fund cannot always detect frequent purchases and redemptions. As a consequence, the Fund's ability to monitor and discourage abusive trading practices in such accounts may be limited.

In addition, the sale of Fund shares is subject to a redemption fee of 2.00% of the amount redeemed within 180 days of purchase. This redemption fee, which may discourage frequent trading by investors, offsets costs the Fund may incur as a result of redemptions related to market timing. See "Selling Shares - Redemption Fee" for additional information.

The investment in foreign securities may make the Fund more susceptible to the risk of market timing activities because of price differentials that may be reflected in the NAV of the Fund's shares. The Fund generally prices its foreign securities using their closing prices from the foreign markets in which they trade, typically prior to the Fund's calculation of its NAV. These prices may be affected by events that occur after the close of a foreign market but before the Fund prices its shares. Although the Fund may fair value foreign securities in such instances and notwithstanding other measures that the Fund may take to discourage frequent purchases and redemptions, investors may engage in frequent short-term trading to take advantage of any arbitrage opportunities in the pricing of the Fund's shares. There is no assurance that fair valuation of securities will reduce or eliminate market timing.

The investment in securities of mid capitalization companies may make the Fund more susceptible to market timing, as shareholders may try to capitalize on the market volatility of such securities and the effect of the volatility on the value of Fund shares.

Canceled or Failed Payments. The Fund accepts checks and ACH payments at full value subject to collection. If the Fund does not receive your payment for shares or you pay with a check or ACH payment that does not clear, your

purchase will be canceled within two business days of notification from your bank that your funds did not clear. You will be responsible for any actual losses and expenses incurred by the Fund or the transfer agent. The Fund and its agents have the right to reject or cancel any purchase request due to non-payment.

Selling Shares

Redemption orders received in good order will be processed at the next calculated NAV. The Fund typically expects to pay shareholder redemption requests, including during stressed market conditions, within one business day of receipt of the request in good order, and may seek to meet such redemption requests through one or more of the following methods: sales of portfolio assets, use of cash or cash equivalents held in the Fund's portfolio, and/or redemptions in-kind, as permitted by applicable rules and regulations. The right of redemption may not be suspended for more than seven days after the tender of Fund shares, except for any period during which (1) the NYSE is closed (other than customary weekend and holiday closings) or the Securities and Exchange Commission (the "SEC") determines that trading thereon is restricted, (2) an emergency (as determined by the SEC) exists as a result of which disposal by the Fund of its securities is not reasonably practicable or as a result of which it is not reasonably practicable for the Fund to determine fairly the value of its net assets, or (3) the SEC has entered a suspension order for the protection of the shareholders of the Fund.

The Fund will not issue shares until payment is received. If redemption is sought for shares for which payment has not been received, the Fund will delay sending redemption proceeds until payment is received, which may be up to 15 calendar days.

How to Sell Shares from Your Account

Through a Financial Intermediary

- If you purchased shares through your financial intermediary, your redemption order must be placed through the same financial intermediary.

By Mail

- Prepare a written request including:
 - your name(s) and signature(s);
 - your account number;
 - the Fund name and class;
 - the dollar amount or number of shares you want to sell;
 - how and where to send the redemption proceeds;
 - a Medallion Signature Guarantee (if required); and
 - other documentation (if required).
- Mail the Fund your request and documentation.

By Telephone

- Call the Fund with your request, unless you declined telephone redemption privileges on your account application.
- Provide the following information:
 - your account number;
 - the exact name(s) in which the account is registered; and
 - additional form of identification.
- Redemption proceeds will be mailed to you by check or electronically credited to your account at the U.S. financial institution identified on your account application.

By Systematic Withdrawal

- Complete the systematic withdrawal section of the application.
- Attach a voided check to your application.
- Mail the completed application to the Fund.
- Redemption proceeds will be mailed to you by check or electronically credited to your account at the U.S. financial institution identified on your account application.

By Internet

How to Sell Shares from Your Account

- Log on to your account from the Fund website.
- Select the “Redemption” option under the “Account Listing” menu.
- Follow the instructions provided.
- Redemption proceeds will be electronically credited to your account at the U.S. financial institution identified on your account application.

Wire Redemption Privileges. You may redeem your shares with proceeds payable by wire unless you declined wire redemption privileges on your account application. The minimum amount that may be redeemed by wire is \$5,000.

Telephone Redemption Privileges. You may redeem your shares by telephone, unless you declined telephone redemption privileges on your account application. You may be responsible for an unauthorized telephone redemption order as long as the transfer agent takes reasonable measures to verify that the order is genuine. Telephone redemption orders may be difficult to complete during periods of significant economic or market activity. If you are not able to reach the Fund by telephone, you may mail us your redemption order.

Systematic Withdrawals. You may establish a systematic withdrawal plan to automatically redeem a specific amount of money or shares from your account on a specified day and frequency not to exceed one withdrawal per month. Payments for systematic withdrawals are sent by check to your address of record, or if you so designate, to your bank account by ACH payment. To establish a systematic withdrawal plan, complete the systematic withdrawal section of the account application. The plan may be terminated or modified by a shareholder or the Fund at any time without charge or penalty. You may terminate your participation in a systematic withdrawal plan at any time by contacting the Fund sufficiently in advance of the next withdrawal.

A withdrawal under a systematic withdrawal plan involves a redemption of Fund shares and may result in a gain or loss for federal income tax purposes. Please call (877) 3-AUXIER or (877) 328-9437 (toll free) for additional information regarding systematic withdrawal plans.

Signature Guarantee Requirements. To protect you and the Fund against fraud, signatures on certain requests must have a Medallion Signature Guarantee. A Medallion Signature Guarantee verifies the authenticity of your signature. You may obtain a Medallion Signature Guarantee from most banking institutions or securities brokers but not from a notary public. Written instructions signed by all registered shareholders with a Medallion Signature Guarantee for each shareholder are required for any of the following:

- written requests to redeem \$100,000 or more;
- changes to a shareholder’s record name or account registration;
- paying redemption proceeds from an account for which the address has changed within the last 30 days;
- sending redemption and distribution proceeds to any person, address or financial institution account not on record;
- sending redemption and distribution proceeds to an account with a different registration (name or ownership) from your account; and
- adding or changing ACH or wire instructions, the telephone redemption or any other election in connection with your account.

The Fund reserves the right to require Medallion Signature Guarantees on all redemptions.

Redemption Fee. If you redeem your shares in the Fund within 180 days of purchase, you will be charged a 2.00% redemption fee. The fee is charged for the benefit of the Fund’s remaining shareholders and will be paid to the Fund to help offset transaction costs. To calculate the redemption fee (after first redeeming any shares associated with reinvested distributions), the Fund will use the first-in, first-out (FIFO) method to determine the holding period. Under this method, the date of the redemption will be compared with the earliest purchase date of shares in the account.

The following redemptions may be exempt from application of the redemption fee if you request the exemption at the time the redemption request is made:

- redemption of shares in a deceased shareholder’s account;
- redemption of shares in an account of a disabled individual (disability of the shareholder as determined by the Social Security Administration);
- redemption of shares purchased through a dividend reinvestment program;
- redemption of shares pursuant to a systematic withdrawal plan;
- redemptions in a qualified retirement plan under section 401(a) of the Internal Revenue Code of 1986, as amended (“IRC”) or a plan operating consistent with Section 403(b) of the IRC; and
- redemptions from share transfers, rollovers, re-registrations within the same fund or conversions from one share class to another within the Fund, if applicable.

The Fund may require appropriate documentation of eligibility for exemption from application of the redemption fee.

Certain financial intermediaries that collect a redemption fee on behalf of the Fund may not recognize one or more of the exceptions to the redemption fee listed above. Financial intermediaries may not be able to assess a redemption fee under certain circumstances due to operational limitations (*i.e.*, on the Fund’s shares transferred to the financial intermediary and subsequently liquidated). Customers purchasing shares through a financial intermediary should contact the financial intermediary or refer to the customer’s account agreement or plan document for information about how the redemption fee is treated. If a financial intermediary that maintains an account with the transfer agent for the benefit of its customers collects a redemption fee for the Fund, no redemption fee will be charged directly to the financial intermediary’s account by the Fund. Certain financial intermediaries that operate omnibus accounts may waive the redemption fee, subject to approval of a Fund officer.

Small Account Balances. If the value of your account falls below the minimum account balances in the following table, the Fund may ask you to increase your balance. If the account value is still below the minimum balance after 60 days, the Fund may close your account and send you the proceeds. The Fund will not close your account if it falls below these amounts solely as a result of Fund performance.

Minimum Account Balance	Investor Shares	A Shares	Institutional Shares
Standard Accounts	\$1,000	\$1,000	\$1,000
Retirement Accounts	\$1,000	\$1,000	\$1,000

Redemptions in Kind. Redemption proceeds normally are paid in cash. Consistent with an election filed with the SEC, under certain circumstances, the Fund may pay redemption proceeds in portfolio securities rather than in cash pursuant to procedures adopted by the Board. However, if the Fund redeems shares in this manner, the shareholder assumes the risk of, among other things, a subsequent change in the market value of those securities and the costs of liquidating the securities (such as brokerage costs). In kind redemptions may be satisfied using illiquid securities held in the Fund’s portfolio, in which case the shareholder will assume the risks associated with such illiquid securities, including the possibility of a lack of a liquid market for those securities. In-kind redemptions may take the form of a pro rata portion of the Fund’s portfolio, individual securities, or a representative basket of securities. Please see the SAI for more details on redemptions in kind.

Lost Accounts. The transfer agent will consider your account lost if correspondence to your address of record is returned as undeliverable on two consecutive occasions, unless the transfer agent determines your new address. When an account is lost, all distributions on the account will be reinvested in additional shares of the Fund. In addition, the amount of any outstanding check (unpaid for six months or more) and checks that have been returned to the transfer agent may be reinvested at the current NAV, and the checks will be canceled. However, checks will not be reinvested into accounts with a zero balance but will be held in a different account. Any of your unclaimed property may be transferred to the state of your last known address if no activity occurs in your account within the time period specified by that state’s law.

Retirement Accounts

You may invest in shares of the Fund through an IRA, including traditional and Roth IRAs, also known as a “Qualified Retirement Account.” The Fund may also be appropriate for other retirement plans, such as 401(k) plans. Before investing in an IRA or other retirement account, you should consult your tax advisor. Whenever making an investment in an IRA or certain retirement plans, be sure to indicate the year to which the contribution is attributed.

OTHER INFORMATION

Distributions and Reinvestments. The Fund declares dividends from net investment income and pays them annually. Any net capital gains and net foreign currency gains realized by the Fund are distributed at least annually.

Most investors typically have their income dividends and other distributions (each, a “distribution”) paid by the Fund reinvested in additional shares of the distributing class of the Fund. If you choose this option, or if you do not indicate any choice, your distributions will be reinvested. Alternatively, you may choose to have your distributions of \$10 or more sent directly to your bank account or paid to you by check. However, if a distribution is less than \$10, your proceeds will be reinvested. If five or more of your distribution checks remain uncashed after 180 days, all subsequent distributions may be reinvested. For federal income tax purposes, distributions to shareholders (other than qualified retirement plans and accounts and other tax-exempt investors) are taxable and are treated the same whether they are received in cash or reinvested.

Taxes. The Fund intends to operate in a manner such that it will continue to qualify for treatment as a “regulated investment company” under Subchapter M of Chapter 1, Subtitle A, of the Internal Revenue Code of 1986, as amended, and will not be liable for federal income or excise taxes on net income and net realized gains that it distributes.

The Fund’s distributions of net investment income, the excess of net short-term capital gain over net long-term capital loss, and certain net foreign currency gains are taxable to you as ordinary income, except as noted below. The Fund’s distributions of net capital gain (that is, the excess of net long-term capital gain over net short-term capital loss), if any, are taxable to you as long-term capital gain, regardless of how long you have held your shares. Distributions may also be subject to state and local income taxes. Some Fund distributions may also include a nontaxable so-called “return of capital,” which will reduce your tax basis in your Fund shares and is treated as gain from the sale of the shares to the extent that it exceeds your basis.

The Fund’s dividends attributable to its “qualified dividend income” (*i.e.*, dividends received on stock of most domestic and certain foreign corporations with respect to which the Fund satisfies certain holding period and other restrictions) generally will be subject to federal income tax for individual and certain other non-corporate shareholders (each, an “individual shareholder”) who satisfy those restrictions with respect to their Fund shares at the rates for net capital gain – a maximum of 15% for non-corporate shareholders with taxable income not exceeding certain thresholds (which will be adjusted for inflation annually) and 20% for non-corporate shareholders with taxable income exceeding such thresholds. A portion of the Fund’s dividends also may be eligible for the dividends-received deduction allowed to corporations; the eligible portion may not exceed the aggregate dividends the Fund receives from domestic corporations subject to federal income tax (thus excluding, among others, real estate investment trusts) and excludes dividends from foreign corporations, subject to similar restrictions. Tax laws and rates may change over time. Please consult a tax professional for more information.

Generally, Fund distributions are taxable to you in the year you receive them. However, any distributions that are declared in October, November or December to shareholders of record in such a month but paid in January generally are taxable as if received on December 31.

A distribution reduces the NAV of the Fund’s shares by the amount of the distribution. If you purchase shares prior to a distribution, you are taxed on the full amount of the distribution even though it represents a partial return of your investment.

A sale (redemption) of Fund shares is a taxable event for federal income tax purposes. You will recognize a gain or loss on the transaction equal to the difference, if any, between the amount of your net redemption proceeds and your tax basis in the redeemed Fund shares. The gain or loss will be capital gain or loss if you held the Fund shares as capital assets. Any capital gain or loss will be treated as long-term capital gain or loss if you held the Fund shares for more than one year at the time of the redemption, and any such gain will be taxed to individual shareholders at the 15% or 20% maximum federal income tax rates mentioned above. Any capital loss arising from a redemption of Fund shares held for six months or less, however, will be treated as long-term capital loss to the extent of the amount of net capital gain distributions received with respect to those shares.

Withholding Tax. If an individual shareholder fails to certify that the TIN furnished to the Fund is correct or furnishes an incorrect number, the Fund must withhold and remit to the U.S. Treasury Department 24% of dividends, capital gain distributions, and redemption proceeds (regardless of whether the shareholder realizes a gain or loss) otherwise payable to the shareholder (together with the withholding described in the next sentence, “backup withholding”). Withholding at that rate also is required from the Fund’s dividends and capital gain distributions otherwise payable to such a shareholder who is subject to backup withholding for any other reason. Backup withholding is not an additional tax, and any amounts so withheld may be credited against a shareholder’s federal income tax liability or refunded.

A Fund shareholder who wants to use the average basis method for determining basis in Fund shares that he or she acquired or acquires after December 31, 2011 (“Covered Shares”), must elect to do so in writing (which may be electronic). If a Fund shareholder fails to affirmatively elect the average basis method, the basis determination will be made in accordance with the Fund’s default method, which is first-in first-out. If, however, a Fund shareholder wishes to use a different method accepted by the Internal Revenue Service (“IRS”) for basis determination (*e.g.*, a specific identification method), the shareholder may elect to do so. The basis determination method that a Fund shareholder elects may not be changed with respect to a redemption of Covered Shares after the settlement date of the redemption.

In addition to the requirement to report the gross proceeds from a redemption of shares, the Fund (or its administrative agent) must report to the IRS and furnish to its shareholders the basis information for Covered Shares and indicate whether they had a short-term (one year or less) or long-term (more than one year) holding period. Fund shareholders should consult with their tax advisors to determine the best IRS-accepted basis determination method for their tax situation and to obtain more information about how the basis reporting law applies to them.

An individual shareholder whose “modified adjusted gross income” exceeds a threshold amount (\$250,000 for married persons filing jointly and \$200,000 for single taxpayers) (“Excess”) is required to pay a 3.8% federal tax on the lesser of (1) the Excess or (2) the individual shareholder’s “net investment income,” which generally includes dividends, interest, and net gains from the disposition of investment property (including distributions the Fund pays and net gains realized on a redemption of Fund shares). This tax is in addition to any other taxes due on that income. Shareholders should consult their own tax advisors regarding the effect, if any, this provision may have on their investment in Fund shares.

After December 31 of each year, the Fund will mail to its shareholders reports containing information about the federal income tax status of distributions paid during the year. For further information about the tax effects of investing in the Fund, please see the SAI and consult your tax advisor.

Organization. The Trust is a Delaware statutory trust, and the Fund is a series thereof. The Fund does not expect to hold shareholders’ meetings unless required by federal or Delaware law. Shareholders of each series of the Trust are entitled to vote at shareholders’ meetings unless a matter relates only to a specific series (such as the approval of an advisory agreement for the Fund). From time to time, large shareholders may control the Fund or the Trust.

Additional Information. The Trust enters into contractual arrangements with various parties, including, among others, the Fund’s Adviser, Subadviser(s) (if applicable), custodian, principal underwriter and transfer agent who provide services to the Fund. Shareholders are not parties to any such contractual arrangements or intended beneficiaries of those contractual arrangements, and those contractual arrangements are not intended to create in any shareholder any right to enforce them against the service providers or to seek any remedy under them against the service providers, either directly or on behalf of the Trust.

This Prospectus provides information concerning the Fund that you should consider in determining whether to purchase Fund shares. Neither this Prospectus, the SAI nor any other communication to shareholders is intended, or should be read, to be or give rise to an agreement or contract between the Trust, its trustees or any series of the Trust, including the Fund, and any investor, or to give rise to any rights in any shareholder or other person other than any rights under federal or state law that may not be waived.

FINANCIAL HIGHLIGHTS

The financial highlights table is intended to help you understand the Fund's financial performance for the past five years. Certain information reflects financial results for a single Fund share. The total returns in the table represent the rate that an investor would have earned or lost on an investment in the Fund, assuming reinvestment of all dividends and distributions.

This information has been audited by BBD, LLP, an independent registered public accounting firm, whose report, along with the Fund's financial statements, are included in the annual report dated June 30, 2020, which is available upon request.

FACTS

Rev. 1/12

WHAT DOES THE AUXIER FOCUS FUND DO WITH YOUR PERSONAL INFORMATION?**Why?**

Financial companies choose how they share your personal information. Federal law gives consumers the right to limit some but not all sharing. Federal law also requires us to tell you how we collect, share, and protect your personal information. Please read this notice carefully to understand what we do.

What?

The types of personal information we collect and share depend on the product or service you have with us. This information can include:

- Social Security number and
- Account balances and
- Account transactions and
- Checking account information and
- Retirement assets and
- Wire transfer instructions.

When you are *no longer* our customer, we continue to share your information as described in this notice.

How?

All financial companies need to share customers' personal information to run their everyday business. In the section below, we list the reasons financial companies can share their customers' personal information; the reasons the Auxier Focus Fund chooses to share; and whether you can limit this sharing.

Reasons we can share your personal information	Does the Auxier Focus Fund share?	Can you limit this sharing?
For our everyday business purposes —such as to process your transactions, maintain your account(s), respond to court orders and legal investigations, or report to credit bureaus	Yes	No
For our marketing purposes —to offer our products and services to you	No	We do not share
For joint marketing with other financial companies	No	We do not share
For our affiliates' everyday business purposes —information about your transactions and experiences	No	We do not share
For our affiliates' everyday business purposes —information about your credit worthiness	No	We do not share
For non-affiliates to market to you	No	We do not share
