\*Periods shown prior to July 1, 1998 represent the performance record of the portfolio management team while affiliated with a prior firm. The presentation conforms to the GIPS guidelines regarding the portability of investment results.

***60% Equity and Cash Composite*** contains fully discretionary equity accounts. Beginning July 1, 1998, accounts/relationships must be 60% invested in equities to be eligible for inclusion. The composite is measured against the S&P 500 and Russell 1000 Value indices. The composite may invest in foreign securities not reflected in the benchmark. The minimum account size for this composite is \$300 thousand per relationship. For the period July 1, 1995 through June 30, 1998, the minimum account size was \$500 thousand. Prior to July 1, 1995, the minimum account size was \$300 thousand.

Auxier Asset Management LLC is a registered investment adviser. The firm maintains a complete list and description of composites, which is available upon request.

Results are based on fully discretionary accounts under management, including those accounts no longer with the firm. Composite performance is presented gross of foreign withholding taxes on dividends, interest income, and capital gains. Withholding taxes may vary according to the investor's domicile. Returns include the effect

of foreign currency exchange rates. The exchange rate source of the composite is the WM Reuters London Close. Past performance is not indicative of future results.

The U.S. Dollar is the currency used to express performance. Returns are presented gross and net of management fees and include the reinvestment of all income. Net of fee performance was calculated using actual management fees. Prior to July 1, 1998, gross returns are shown as supplemental information and are stated gross of all fees and transaction costs; net returns are reduced by the highest total wrap fee incurred. The annual composite dispersion presented is an asset-weighted standard deviation calculated for the accounts in the composite the entire year. Policies for valuing portfolios, calculating performance and preparing compliant presentations are available upon request.

The investment management fee schedule for the composite is 1.10% on the first \$1000,000 in market value and 1.00% on the excess over \$1,000,000 in market value. Actual investment advisory fees incurred by clients may vary.

Prior to July 1, 1998, balanced portfolio segments were included in this composite and performance reflects required total segment plus cash returns using a predetermined cash allocation percentage.

The 60% Equity and Cash Composite was created July 1, 1998. Performance presented prior to July 1, 1998 occurred while the Portfolio Management Team was affiliated with a prior firm and the Portfolio Management Team members were the only individuals responsible for selecting the securities to buy and sell. A review of the prior track record for compliance with the portability requirements of the GIPS standards was conducted by Ashland Partners & Company LLP.

In 2010 and 2011 composite assets and dispersion information were calculated based on individual accounts and relationship groups that were in the composite as of December 31<sup>st</sup> in each respective year. Relationship groups were counted as single accounts. Beginning December 31, 2012 composite assets and dispersion information are no longer calculated using relationship groups, they are calculated using only individual accounts as the Advisor discontinued the use of relationship groups.
