**AUXIER FOCUS FUND**  
A MESSAGE TO OUR SHAREHOLDERS  
JUNE 30, 2006

---

The Auxier Focus Fund's Investor Shares (the "Fund") ended the fiscal year June 30, 2006 with a disappointing gain of 3.44% versus a gain of 8.63% for the S&P 500® Index (the "Index"). A big reason for the underperformance was the Fund's underweighting in energy and natural resources. The Index's energy sector appreciated 22.55% for the period. Still, given the Fund's nimble asset size and flexible mandate there is no excuse for the sub par performance. In past years the Fund's equity component has generally outperformed and the Fund itself has outperformed the Index in 50 of 72 rolling 12-month periods (69% of the time) since inception (7/9/99), with an average equity exposure of only 70%. Longer term numbers are better, as the Fund's cumulative performance since inception through June 30, 2006 is 65.43% versus a 1.02% return for the Index representing a cumulative outperformance of 64.41%. For the 5-year and since inception performance the Fund's annualized return is 7.29% and 7.48% respectively, versus 2.49% and 0.15% over the same periods for the Index. *(Performance data quoted represents past performance and is no guarantee of future results. Current performance may be lower or higher than the performance data quoted. Investment return and principal value will fluctuate so that an investor's shares, when redeemed, may be worth more or less than original cost. For the most recent month-end performance, please visit the Fund's website at [www.auxierasset.com](http://www.auxierasset.com). The Fund charges a 2.0% redemption fee on shares redeemed within 180 days after they are purchased, subject to limited exceptions.)*

### **Market Commentary**

Recently, fears of higher inflation, interest rates and oil prices have led to a reassessment of portfolio risk. As global economies have improved, interest rates have risen in tandem, acting to reduce liquidity. Speculative strategies utilizing cheap borrowed money and low-quality securities have come into question. When money is easy and volatility is low, speculators tend to "leverage up" seeking to enhance returns. The second quarter saw an unwinding of these leveraged strategies with the advantage going to the higher quality businesses with solid dividends and strong balance sheets. The market has been long overdue for a correction to purge these excesses.

Oil prices are up over 100% the past two years, with fears of supply disruptions from geopolitical tensions, particularly in the Middle East, driving the prices far above fundamentals. Why not put everything in oil stocks? In today's global economy in which communication costs are down over 90% in the past twenty years, the "electronic herd" can literally move billions of dollars with a mouse click. The fiber optic cable industry was flooded with over \$80 billion in capital in less than three years in the late 1990s. This led to a painful price deflation for the entire industry. Now, less than 10% of fiber capacity is being utilized. The lesson: the flow of information and funding is so rapid that an industry appearing to have strong sustainable pricing can suddenly become highly risky due to overinvestment. Capital gushing into the oil sector is causing price increases on commodity inputs, personnel and services. In addition, higher prices eventually alter consumption patterns, which in time can dampen demand. Taken together, these two trends could lead to a deceleration in the favorable pricing environment. Ironically, as oil has increased dramatically, natural gas prices are off over 30% this year due to record inventories in storage.

### **Staying ahead of inflation**

According to recent government reports, inflation has continued to worsen. Yet the true measure of US inflation appears understated due to questionable government interpretation. For example, the government does not count the cost of energy and food in the core producer price index or the core consumer price index. In other words, if you don't eat, drive or heat your home, then you are probably not feeling the impact of inflation. The government utilizes rent statistics to calculate the cost of shelter in the consumer price index rather than true home ownership data. Thus we are left with the impression that the cost of shelter has been relatively flat during one of the most sustained real estate booms this country has seen.

Assuming inflation is understated, where should one invest? Rising inflation can compress price-to-earnings (P/E) ratios and profit margins, leaving high P/E stocks vulnerable. The ideal investment in such an environment is a bargain-priced company that can raise prices to counter inflation but does not have high mandatory capital spending needs. Consumer product companies with strong brands and loyal customers, like Altria and Coke, have endured

A MESSAGE TO OUR SHAREHOLDERS  
JUNE 30, 2006

---

such inflationary periods. In contrast, capital intense industries, such as railroads, may enjoy great pricing but their spending needs are so high that profits often end up in the ground. Thus, the best way to mitigate the effects of inflation on a stock portfolio is to own companies with solid balance sheets that generate meaningful free cash and are able to either buy back stock or raise dividends.

**Going to school on The Great Getty**

Given the uncertain investment climate, it is helpful to revisit the strategies of one of America's most successful investors in the oil patch—J. Paul Getty. The following is an excerpt from *The Great Getty* by Robert Lenzner. "Throughout the 1930s, while the USA was struggling to recover from the worst economic setback in history, Getty was operating at full strength in the stock market amassing shares...He was one of the first modern corporate takeover strategists to use the stock market to gain control over companies, but in one significant sense he was a different animal from today's empire builder. He would never dream of borrowing a billion dollars from the banks in pursuit of his ends, or paying a 50% premium over and above market price to win his battle. What he always wanted was a bargain, an investment to be acquired below book value, a company with assets, above ground or below ground, worth far more than he paid for them."

Getty's motto was to "buy when everyone else is selling, and hold until everyone else is buying." This is an example of how the market is there to serve, not guide the investor, and actions should be disciplined by price/value considerations.

Our efforts remain committed to discovering undervalued securities regardless of the macroeconomic backdrop or latest market fads. While periods of volatility can be trying as an investor, we welcome its return to a market that had become complacent in the face of mounting risks. Prior to the most recent selloff, the market had not experienced a 10% correction in more than three years. Volatility is the friend of the rational investor who remains calm and disciplined while panic-stricken shareholders unload their holdings without regard to fundamental value. Pricing misappraisals become more abundant in such an environment, providing greater opportunity to pick up shares of quality companies trading at a discount to their intrinsic worth.

We appreciate your trust and support.

Jeff Auxier

Portfolio Manager

*The views in this report were those of the Fund manager as of June 30, 2006 and may not reflect his views on the date this report is first published or anytime thereafter. These views are intended to assist shareholders in understanding their investments in the Fund and do not constitute investment advice.*

*As a non-diversified fund, the Fund will be subject to substantially more investment risk and potential for volatility than a diversified fund because its portfolio may at times focus on a limited number of companies. Moreover, if the Fund's portfolio is overweighted in a sector, any negative development affecting that sector will have a greater impact on the Fund than a fund that is not overweighted in that sector. Performance shown is for the Fund's Investor shares; returns for other share classes will vary. Price to earnings ratio is the value of a company's stock price relative to company earnings.*

**COMPARISON OF CHANGE IN VALUE OF A \$10,000 INVESTMENT**

The following chart reflects the change in value, since the Fund's inception, of a hypothetical \$10,000 investment, including reinvested dividends and distributions compared with a broad-based securities market index. The S&P 500 (R) Index ("Index") is a market weighted index composed of 500 large capitalization companies and reflects the reinvestment of dividends. The Fund is professionally managed while the Index is unmanaged and is not available for investment. The total return of the Fund's classes includes the maximum sales charge of 5.75% (A shares only), the maximum contingent deferred sales charge ("CDSC") of 1.00% (C shares only) and operating expenses that reduce returns while the total return of the Index does not include the effect of sales charges and expenses. A shares are subject to a 1.00% CDSC on shares purchased without an initial sales charge and redeemed less than one year after purchase. The performance of each class will differ due to different sales charges and expense structures. During the performance period shown, certain Fund fees were waived or expenses reimbursed; otherwise, total return would have been lower, for all share classes.

Performance data quoted represents past performance and is no guarantee of future results. Current performance may be lower or higher than the performance data quoted. Investment return and principal value will fluctuate so that an investor's shares, when redeemed, may be worth more or less than original cost. For the most recent month-end performance, please visit the website of the Fund's investment adviser at [www.auxierasset.com](http://www.auxierasset.com). Returns greater than one year are annualized. All Fund share classes charge a 2.0% redemption fee on shares purchased after 10/11/04 and redeemed within six months of purchase.

Performance for Investor shares for periods prior to December 10, 2004 reflects performance of Auxier Focus Fund, a series of Unified Series Trust (the "Predecessor Fund"). Prior to January 3, 2003, the Predecessor Fund was a series of Ameriprime Funds. The performance of Investor shares for the period prior to December 10, 2004 reflects the expenses of the Predecessor Fund.

<u>Average Annual Total Return as of 06/30/06</u>	<u>1 Year</u>	<u>5 Years</u>	<u>Since Inception <sup>(1)</sup></u>
Investor Shares	3.44%	7.29%	7.48%
A Shares (with sales charge) <sup>(2)</sup>	N/A	N/A	(3.57)%
C Shares (with sales charge)	N/A	N/A	1.38%

(1) Investor, A and C shares commenced operations on July 9, 1999, July 8, 2005, and August 26, 2005, respectively.

(2) Due to shareholder redemptions on August 21, 2005 net assets of the class were zero from the close of business on that date until September 22, 2005. Financial information presented for the period August 21, 2005 to September 22, 2005 reflects performance of Investor shares of the Fund. Investor shares has the same net expense ratio as the A shares.

**Note 1. Organization**

This report relates to Auxier Focus Fund (the “Fund”), a non-diversified series of Forum Funds (the “Trust”). The Trust is a Delaware statutory trust that is registered as an open-end, management investment company under the Investment Company Act of 1940, as amended. The Trust currently has twenty-seven investment portfolios.

Under its Trust Instrument, the Trust is authorized to issue an unlimited number of the Fund’s shares of beneficial interest without par value. The Fund currently offers three classes of shares: Investor Shares, A Shares, and C Shares. Investor Shares, A Shares and C Shares commenced operations on July 9, 1999, July 8, 2005 and August 26, 2005, respectively. A Shares generally have a front-end sales charge. A contingent deferred sales charge of 1.00% is assessed on A Shares purchased without an initial sales charge and redeemed less than one year after they are purchased and on C Shares that are redeemed less than one year after they are purchased.

The Fund’s investment objective is to achieve long-term capital appreciation by investing primarily in a portfolio of common stocks that the Fund’s investment advisor believes offer growth opportunities at a reasonable price. The Fund is intended for long-term investors.

**Note 2. Summary of Significant Accounting Policies**

These financial statements are prepared in accordance with accounting principles generally accepted in the United States of America, which require management to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of increase and decrease in net assets from operations during the fiscal year. Actual amounts could differ from those estimates. As a non-diversified fund, the Fund will be subject to more investment risk and potential for volatility than a diversified fund because its portfolio may at times focus on a limited number of companies. The following summarizes the significant accounting policies of the Fund:

**Security Valuation** – Exchange traded securities and over-the-counter securities are valued at the last sale or official closing price, as provided by independent pricing services as of the close of trading on the market or exchange for which they are primarily traded, on each Fund business day. In the absence of a sale, such securities are valued at the mean of the last bid and asked price. Non-exchange traded securities for which quotations are available are generally valued at the mean between the current bid and asked prices provided by independent pricing services. Fixed income securities may be valued at prices supplied by the Fund’s pricing agent based on broker or dealer supplied valuations or matrix pricing, a method of valuing securities by reference to the value of other securities with similar characteristics, interest rates and maturity. Investments in open end investment companies are valued at net asset value. Money market instruments that mature in sixty days or less are valued at amortized cost.

The Fund values its investments at fair value pursuant to procedures adopted by the Trust’s Board of Trustees (the “Board”) if (1) market quotations are insufficient or not readily available; or (2) the Adviser believes that the values available are unreliable. Fair valuation is based on subjective factors and as a result, the fair value price of an asset may differ from the asset’s market price and may not be the price at which the asset may be sold. Fair valuation could result in a different net asset value (“NAV”) than a NAV determined by using market quotes.

**Security Transactions, Investment Income and Realized Gain and Loss** – Investment transactions are accounted for on trade date. Dividend income is recorded on the ex-dividend date. Foreign dividend income is recorded on the ex-dividend date or as soon as practical after the Fund determines the existence of a dividend declaration after exercising reasonable due diligence. Income and capital gains on some foreign securities may be subject to foreign withholding taxes, which are accrued as applicable. Interest income is recorded as earned. All premium and discount are amortized and accreted according to Federal income tax regulations. Identified cost of investments sold is used to determine gain and loss for both financial statement and Federal income tax purposes.

**Foreign Currencies** – Foreign currency amounts are translated into U.S. dollars as follows: (i) assets and liabilities at the rate of exchange at the end of the respective period; and (ii) purchases and sales of securities and income and expenses at the rate of exchange prevailing on the dates of such transactions. The portion of the results of operations arising from changes in the exchange rates and the portion due to fluctuations arising from changes in the market prices of equity securities are not isolated. These fluctuations are included with the net realized and unrealized gain or loss on investments.

**Distributions to Shareholders** – Distributions to shareholders from net investment income and net capital gains, if any, are declared and paid at least annually. Distributions are based on amounts calculated in accordance with applicable Federal income tax regulations, which may differ from generally accepted accounting principles, generally accepted in the United States of America. These differences are due primarily to differing treatments of income and gain on various investment securities held by the Fund, timing differences and differing characterizations of distributions made by the Fund.

**Federal Taxes** – The Fund intends to qualify each year as a regulated investment company under Subchapter M of the Internal Revenue Code and distribute all its taxable income. In addition, by distributing in each calendar year substantially all its net investment income, and capital gains, if any, the Fund will not be subject to a Federal excise tax. Therefore, no Federal income or excise tax provision is required.

**Expense Allocation** – The Trust accounts separately for the assets, liabilities and operations of each of its series. Expenses that are directly attributable to more than one series are allocated among the respective series in proportion to each series' average daily net assets. Each share of each class of the Fund represents an undivided, proportionate interest in the Fund.

Income and expenses (other than expenses attributable to a specific class), and realized and unrealized gains or losses on investments are allocated to each class of shares based on the class' respective net assets to the total net assets of the Fund.

**Redemption Fees** – If you redeem or exchange your shares within 180 days of purchase, you will be charged a 2.00% redemption fee. The fee is charged for the benefit of remaining shareholders and will be paid to the Fund to help offset future transaction costs. To calculate redemption fees, the Fund uses the first-in, first-out method to determine the holding period. Under this method, the date of redemption is compared with the earliest purchase date of shares held in the account. The fee is accounted for as an addition to paid-in capital. The Fund reserves the right to modify the terms of or terminate the fee at any time.

**New Accounting Pronouncements** - In June 2006, the Financial Accounting Standards Board issued Financial Interpretation No. 48, "Accounting for Uncertainty in Income Taxes"(the "Interpretation"), which is effective for fiscal years beginning after December 15, 2006 and is to be applied to all open tax years as of the effective date. This Interpretation prescribes a minimum threshold for financial statement recognition of the benefit of a tax position taken or expected to be taken in a tax return, and requires certain expanded disclosures. Management has recently begun to evaluate the application of the Interpretation to the Fund, and has not at this time determined the impact, if any, resulting from the adoption of this Interpretation on the Fund's financial statements.

### **Note 3. Advisory Fees, Servicing Fees and Other Transactions**

**Investment Advisor** – Auxier Asset Management, LLC (the "Advisor") is the investment advisor to the Fund. Pursuant to a management agreement, the Advisor receives an advisory fee at an annual rate of 1.35% of the Fund's average daily net assets. Under the terms of the management agreement, the Advisor is obligated to pay all expenses of the Fund, except fees and expenses of the Independent Trustees, Rule 12b-1 expenses, brokerage fees and commissions, taxes, borrowing costs (including interest and dividend expenses on short sales), and extraordinary expenses.

**Administration and Other Services** – Citigroup Fund Services, LLC ("Citigroup") provides administration, portfolio accounting, and transfer agency services to the Fund.

---

**AUXIER FOCUS FUND**  
NOTES TO FINANCIAL STATEMENTS  
JUNE 30, 2006

---

**Distribution** – Foreside Fund Services, LLC is the Trust’s distributor (the “Distributor”). The Distributor is not affiliated with the Adviser, or Citigroup and its affiliated companies.

Under a Distribution Plan adopted pursuant to Rule 12b-1 under the Act with respect to A Shares and C Shares, (“Distribution Plan”), the Fund pays the Distributor or any other entity authorized by the Board (“Payees”) collectively, a fee at an annual rate of 0.25% and 1.00%, respectively, of the average daily net assets of each class. For the year ended June 30, 2006, the Distributor received \$752 pursuant to the Distribution Plan.

For the year ended June 30, 2006, the Distributor retained \$3,105 of the front-end sales charges assessed on the sale of A Shares. The Distributor did not retain any commissions from the contingent deferred sales charges assessed on A Shares purchased without an initial sales charge and redeemed less than one year after they are purchased. The Distributor did not retain any commissions from the contingent deferred sales charges assessed on purchases of \$1 million or more of C Shares that are liquidated in whole or in part within one year purchase.

Under a Compliance Services Agreement with the Trust, the Distributor provides a Chief Compliance Officer, Principal Executive Officer, Principal Financial Officer and Anti-Money Laundering Officer to the Trust as well as certain additional compliance support functions. The Principal Executive Officer of the Trust is also a principal of the Distributor. The Distributor has no role in determining the investment policies or which securities are to be purchased or sold by the Trust or its Funds. For the year ended June 30, 2006 the Adviser paid compliance service fees for the Fund of \$18,469 from the fees collected under the Investment Adviser agreement.

**Officers** – Certain officers of the Trust are directors, officers, or employees of the Distributor or Citigroup.

**Note 4. Waiver of Fees and Reimbursement of Expenses**

The Advisor has contractually agreed to reimburse certain expenses so that net expenses do not exceed 1.35%, 1.35%, and 2.10% of the average daily net assets of Investor Shares, A Shares, and C Shares, respectively, through October 31, 2006. For the year ended June 30, 2006, the Advisor waived fees of \$7,411.

**Note 5. Security Transactions**

The cost of purchases and proceeds from sales of securities (including maturities), other than short-term investments, for the year ended June 30, 2006 were as follows:

	<b>Non US Government Obligations</b>	<b>US Government Obligations</b>
Purchases	\$26,850,192	\$4,690,196
Sales	\$23,902,189	-

**Note 6. Federal Income Tax and Investment Transactions**

As of June 30, 2006, distributable earnings (accumulated losses) on a tax basis were as follows:

Undistributed Ordinary Income	\$ 909,649
Undistributed Long-Term Gain	3,228,449
Unrealized Appreciation (Depreciation)	8,223,660
Total	<u>\$12,361,758</u>

The difference between components of distributable earnings on a tax basis and the amount reflected in the Statement of Assets and Liabilities are primarily due to wash sales.

The tax character of distributions paid as of June 30, 2006 and 2005 were as follows:

	<b>2006</b>	<b>2005</b>
Ordinary Income	\$ 1,215,096	\$ 441,075
Long-term Capital Gain	1,417,719	1,322,191

---

**AUXIER FOCUS FUND**  
NOTES TO FINANCIAL STATEMENTS  
JUNE 30, 2006

---

On the Statement of Assets and Liabilities, as a result of permanent book to tax differences, certain amounts have been reclassified for the year ended June 30, 2006. The following reclassification was primarily due to currency and REIT adjustments, and has no impact on the net assets of the Fund.

Accumulated Net Investment Income	\$52,888
Paid-In-Capital	3,520
Undistributed Net Realized Gain (Loss)	(56,408)

**Note 7. Share Transactions**

Share Transactions for the Fund were as follows:

	<b>For the Year Ended June, 2006</b>	<b>2005</b>
Sales of Shares:		
Investor Shares	1,742,260	2,658,964
A Shares	26,411	-
C Shares	3,157	-
Reinvestment of distributions:		
Investor Shares	171,877	120,914
A Shares	254	-
C Shares	25	-
Redemption of shares:		
Investor Shares	(1,477,697)	(846,514)
A Shares	(151)	-
Redemption fees	-	-
Increase (decrease) from share transactions	<u>466,136</u>	<u>1,933,364</u>

**Note 8. Other Information**

On June 30, 2006, one shareholder held approximately 43% of the outstanding shares of Investor shares. This shareholder is an omnibus account, which is held on behalf of several individual shareholders. On the aforementioned date, three shareholders held approximately 62% for the outstanding shares of A shares. On the aforementioned date, three shareholders held approximately 96% for the outstanding shares of C shares.

---

**AUXIER FOCUS FUND****REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM****JUNE 30, 2006**

---

To the Board of Trustees of Forum Funds and Shareholders of  
Auxier Focus Fund:

We have audited the accompanying statement of assets and liabilities of Auxier Focus Fund (the "Fund"), a series of Forum Funds, including the schedule of investments, as of June 30, 2006, and the related statement of operations for the year then ended, and the statements of changes in net assets and financial highlights for each of the two years in the period then ended. These financial statements and financial highlights are the responsibility of the Fund's management. Our responsibility is to express an opinion on these financial statements and financial highlights based on our audit. The financial highlights for each of the three years in the period ended June 30, 2004 were audited by other auditors whose report, dated August 25, 2004, expressed an unqualified opinion on those financial highlights.

We conducted our audits in accordance with standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements and financial highlights are free of material misstatement. The Fund is not required to have, nor have we been engaged to perform an audit of its internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. Our procedures included confirmation of securities owned as of June 30, 2006, by correspondence with the custodian and brokers; where replies were not received from brokers, we performed other auditing procedures. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements and financial highlights referred to above present fairly, in all material respects, the financial position of Auxier Focus Fund as of June 30, 2006, the results of its operations for the year then ended, the changes in its net assets and financial highlights for each of the two years in the period then ended, in conformity with accounting principles generally accepted in the United States of America.

**Proxy Voting Information**

A description of the policies and procedures that the Fund uses to determine how to vote proxies relating to securities held in the Fund's portfolio is available, without charge and upon request, by calling (877) 328-9437, on the Fund's web site at [www.auxierasset.com/focus\\_fund.htm](http://www.auxierasset.com/focus_fund.htm) and on the SEC's website at [www.sec.gov](http://www.sec.gov). The Fund's proxy voting record for the twelve-month period ended June 30 is available, without charge and upon request, by calling (877) 328-9437 and on the SEC's web site at [www.sec.gov](http://www.sec.gov).

**Availability of Quarterly Portfolio Schedules**

The Fund files its complete schedule of portfolio holdings with the SEC for the first and third quarters of each fiscal year on Form N-Q. The Fund's, Forms N-Q are available, without charge and upon request, on the SEC's website at [www.sec.gov](http://www.sec.gov) or may be reviewed and copied at the SEC's Public Reference Room in Washington, DC. Information on the operation of the Public Reference Room may be obtained by calling (800) SEC-0330.

**Shareholder Expense Example**

As a shareholder of the Fund, you incur two types of costs: (1) transaction costs, including sales charges (loads) on purchase payments on certain classes; redemption fees; and exchange fees and (2) ongoing costs, including management fees; distribution fees; and other Fund expenses. This example is intended to help you understand your ongoing costs (in dollars) of investing in the Fund and to compare these costs with the ongoing costs of investing in other mutual funds.

The following example is based on \$1,000 invested at the beginning of the period and held for the entire period from January 1, 2006 (or the class' inception date) through June 30, 2006.

**Actual Expenses** – The first line of the table below provides information about actual account values and actual expenses. You may use the information in this line, together with the amount you invested, to estimate the expenses that you paid over the period. Simply divide your account value by \$1,000 (for example, an \$8,600 account value divided by \$1,000 = 8.6), then multiply the result by the number in the first line under the heading entitled "Expenses Paid During Period" to estimate the expenses you paid on your account during the period.

**Hypothetical Example for Comparison Purposes** – The second line of the table below provides information about hypothetical account values and hypothetical expenses based on the Fund's actual expense ratio and an assumed rate of return of 5% per year before expenses, which is not the Fund's actual return. The hypothetical account values and expenses may not be used to estimate the actual ending account balance or expenses you paid for the period. You may use this information to compare the ongoing cost of investing in the Fund and other funds. To do so, compare this 5% hypothetical example with the 5% hypothetical examples that appear in the shareholder reports of other funds.

Please note that expenses shown in the table are meant to highlight your ongoing costs only and do not reflect any transactional costs, such as sales charges (loads) for certain share classes, redemption fees or exchange fees. Therefore, the second line of the table is useful in comparing ongoing costs only, and will not help you determine the relative total costs of owning different funds. In addition, if these transactional costs had been included, your costs would have been higher.

	<b><u>Beginning Account Value January 1, 2006</u></b>	<b><u>Ending Account Value</u></b>	<b><u>Expenses Paid During Period*</u></b>	<b><u>Annualized Expense Ratio*</u></b>
<b>Investor Shares</b>				
Actual Return	\$1,000.00	\$1,002.04	\$6.70	1.35%
Hypothetical Return	\$1,000.00	\$1,018.10	\$6.76	1.35%
<b>A Shares</b>				
Actual Return	\$1,000.00	\$1002.04	\$6.70	1.35%
Hypothetical Return	\$1,000.00	\$1,018.10	\$6.76	1.35%

**AUXIER FOCUS FUND**

ADDITIONAL INFORMATION (Unaudited)

JUNE 30, 2006

---

**C Shares**

Actual Return	\$1,000.00	\$998.66	\$10.41	2.10%
Hypothetical Return	\$1,000.00	\$1,014.38	\$10.49	2.10%

\*Expenses are equal to the Fund's annualized expense ratio as indicated above multiplied by the average account value over the period, multiplied by the number of days in most recent fiscal half-year divided by 365 to reflect the half-year period.

**Federal Tax Status of Dividends Declared during the Tax Year**

For Federal income tax purposes, dividends from short-term capital gains are classified as ordinary income. All net investment income dividends were ordinary income. The percentage of ordinary income distributions designated as qualifying for the corporate dividends received deduction ("DRD"), the individual qualified dividend rate ("QDI") and the Qualifying Interest Income exempt from U.S. tax for foreign shareholders ("QII") is presented below.

<b><u>DRD</u></b>	<b><u>QDI</u></b>	<b><u>QII</u></b>
100.00%	100.00%	20.46%

**Trustees and Officers of the Trust**

The Board is responsible for oversight of the management of the Trust's business affairs and of the exercise of all the Trust's powers except those reserved for shareholders. The following tables give information about each Board member and certain officers of the Trust. The fund complex includes the Trust and Monarch Funds, another registered investment company (collectively, the "Fund Complex"), which hold themselves out to investors as related companies for purposes of investment and investor services. The Trustees and officers listed below also serve in the capacities noted below for Monarch Funds with the exception of Mr. Collier and Ms. Bakke who do not serve as officers of Monarch Funds. Mr. Keffer is considered an Interested Trustee due to his affiliation with a Trust advisor and the Distributor within the past two years. Each Trustee and officer holds office until the person resigns, is removed, or replaced. Unless otherwise noted, the persons have held their principal occupations for more than five years. The addresses for all Trustees and officers is Two Portland Square, Portland, ME 04101, unless otherwise indicated. Each Trustee oversees thirty-one portfolios in the Fund Complex. Each Independent Trustee is also an Independent Trustee of Monarch Funds. John Y. Keffer is an Interested Trustee/Director of Wintergreen Fund, Inc. and Monarch Funds. The Fund's Statement of Additional Information includes additional information about the Trustees and is available, without charge and upon request, by calling (800) 206-8610.
